

Don't let the end of term cost you!

With the end of term approaching and changeover of students in your houses, it's important that you start thinking about how you are going to get rid of any big items of waste, like furniture and mattresses for example.

You can be fined
for dumping rubbish outside of your property.

£75

Encouraging your tenants to make sure the front of the house is litter free will also help you, your neighbours and the environment.

Please recycle and help look after our environment.

What can you do?

- Advise tenants to use their green lidded bin to dispose of general household waste
- Advise tenants to use their blue lidded bin to recycle all cardboard, paper, cans and plastic bottles
- Contact the council's Actionline on 0800 5 19 19 19 if you need to dispose of Bulky Household Waste. The cost is only £25 for up to 10 items for a first and second annual collection. There is an additional charge for the disposal of fridges and freezers
- If you've arranged to have rubbish collected you can leave it at the front of the property on the day of collection, but don't leave it on the pavement
- Contact local charity SCRATCH on 023 8077 3132 if you have furniture you want to donate. They charge £5 to collect donated furniture. Their requirements may vary from time to time.
