

Four signs of a spam email

1. Email isn't addressed to a particular user.

DEAR @soton.ac.uk ACCOUNT USER,

2. Poor grammar

We received reports of @soton.ac.uk user's accounts been phished and @soton.ac.uk Web Admin has started a quarantine. This maintenance will help us avoid this dilemma every day and with the new improved software it will provide our users with a new security system that will protect and prevent users' account from getting hacked or phished.

We recommend that you update your @soton.ac.uk account now to avoid termination or account de-activation.

3. The urgency of the response needed

UPDATE CLICK HERE

4. Always hover your mouse over a link to see where you will be directed to.

As always, your privacy and security are of utmost importance to us. We apologize if you have experienced any difficulties due to this situation, and please know that our technical staffs are working to solve this problem.

Thanks for your anticipated co-operation,
