

Paradata: From Survey Research to Practice

**One-day conference on 26th June 2014 at the Royal Statistical Society,
12 Errol Street, London, EC1Y 8LX, UK.**

Programme

- 10.30-11.00 **Registration and coffee**
- 11.00-12.40 **Presentations – Session One**
1. Gabriele Durrant – Welcome and Introduction (including overview over ESRC paradata research project)
 2. Olga Maslovskaya, Gabriele Durrant, Peter W.F. Smith – Sequence analysis as a graphical tool for investigating call record data
 3. Gabriele Durrant, Olga Maslovskaya, Peter W.F. Smith – Modelling final outcome and length of call to improve efficiency in call scheduling
 4. Frauke Kreuter, Fred Conrad, Jose Benki, Alexandra Birg, Susanne Hüttinger and Helmut Küchenhoff - Use of paradata derived from vocal properties of interviewers and respondents in researching survey participation
- 12.40-13.40 **Lunch**
- 13.40-15.20 **Presentations – Session Two** - Discussant: Peter Lynn
1. Natalie Shlomo - Using R-indicators for adaptive follow-up in longitudinal studies
 2. Barry Schouten - Using paradata to identify response styles and respondent profiles for adaptive survey design
 3. Patrick Sturgis, Gosia Turner, and David Martin - Using response latency paradata to evaluate indicators of data quality
- 15.20-15.50 **Tea/Coffee**
- 15.50-17.20 **Presentations – Session Three** – Discussant: Patrick Sturgis
1. Mario Callegaro - Using paradata to improve the quality of web surveys. Some examples and applications
 2. Ulrich Krieger and Annelies Blom - Collecting and publishing paradata on the German Internet Panel
- 17.30 **Formal End of Conference**
