## Supporting the University of Southampton

Our bright and talented students and researchers are at the centre of some of today's most influential and groundbreaking research discoveries. Our world-leading research is what helps the University to maintain its status as one of the UK's top 15 research institutions year on year. Great discoveries are made by those who are given the opportunity to succeed and there are still many breakthroughs yet to be made by our students and researchers here at Southampton.

We hope that you are proud to be a graduate of Southampton and that the experiences you had as a student helped to shape a successful future upon leaving the University. Regular donations to support the University are a fantastic opportunity for you to encourage our students to follow in your footsteps and enable them to be the best and brightest in their field of study regardless of their background or circumstances. With your support we are able to provide more scholarships and bursaries, improvements to student study spaces, developments towards world-leading research facilities and amazing experiences that shape our students into the leaders of tomorrow.

By supporting one of the funds below you will be helping us to make an even bigger impact for our students and your University.

# Campaign for the Centre for Cancer Immunology

For over 40 years, the University of Southampton has been leading the way in cancer immunology research and immunotherapy treatments, harnessing the power of the immune system to seek out, destroy and eradicate cancers, potentially providing lifelong immunity. Our groundbreaking discoveries are moving out of the laboratory and into clinical trials, where they are already making a life-changing difference to people with hard to beat cancers. An amazing 90 per cent of our clinical trials patients treated with antibody immunotherapy, who survived beyond 2 years, are now living cancer free. But there is still much more to do.

Our £25 million campaign will fund the first dedicated cancer immunology centre in the UK. Connected to leading institutions worldwide, this cutting-edge research hub will enable our interdisciplinary teams to expand clinical trials, explore new areas and accelerate the development of life-saving drugs. We believe immunotherapy has the potential to treat at least 50 per cent of all known cancers and with continued research, vaccines for certain cancers could be realised in just 15 years.

In this, the University's first ever major fundraising campaign, help us reach our goal and make the Centre a reality. Together, we can make a difference. Your immune system. Your support. The cure for cancer? You're it.

Find out more about the campaign at www.southampton.ac.uk/youreit

## The Student Support Fund

We believe that financial circumstances should never prevent talented and ambitious students from benefiting from a pioneering and world-leading education. To help recruit and retain the best and brightest students, the University is dedicated to providing financial assistance to students in a variety of subject areas at undergraduate and postgraduate levels. These scholarships help our students to continue their education regardless of their circumstances and to continue making ground-breaking discoveries that have the potential to positively change the world for the better.

### The Student Experience Fund

From attending the University of Southampton as a student, you will know first-hand how great experiences linked to your education play a pivotal role in shaping who you will become after graduation. The Student Experience Fund exists to provide support for student focused projects, improvements to student facilities and state-of-the-art equipment, including the University's libraries. A gift to this fund also helps to support the University's many different student clubs and societies including our ENACTUS student enterprise society, Formula Student F1 racing team and several of the University's sports teams.

### The Vice-Chancellor's Fund

The University of Southampton combines academic excellence with an innovative and entrepreneurial approach to research, supporting a culture that engages and challenges students and staff in their pursuit of excellence. In a world that is always changing, philanthropic support helps the University to respond to the greatest needs of our students and to take advantage of emerging opportunities, which is vitally important to our future success. Through education, innovation and research the University unlocks potential and provides opportunities that transform lives.
