Further information

For more information on the opportunities exhibitors are offering, please see the Exhibitor Profiles

The Careers and Employability Service is committed to offering the best possible opportunities to our students and, to that end, we have more exhibiting organisations attending than ever before. From sectors as diverse as engineering and IT to retail and financial services, there will be a wide range of exhibiting organisations for you to connect with.

The Fair is an excellent opportunity for you to market yourself to your chosen industry, explore what roles and opportunities are available, and to build useful contacts for future reference.

You will also be able to seek advice from the Careers and Employability Service and get tips on writing your CV at our graduate recruiter led CV Clinics – all available on the day. The Careers and Employability staff look forward to meeting you at the Fair. Please visit stand 11.

We would like to take this opportunity to thank the following companies for sponsoring our Information Technology, Science and Engineering Fair:

Prepare for the Fair

The Information Technology, Science and Engineering Fair is an excellent way of making direct contact with employers – but it can be overwhelming if you do not know how to approach it. It is important to prepare for the Fair, to make sure you maximise your time with exhibiting organisations and ensure you are clear of the opportunities being offered. To learn how you can impress employers and to follow up promising first encounters, attend our ‘Prepare for the Fair’ session. Register your place via the Events Calendar at mycareer.soton.ac.uk

Undergraduate and Postgraduate students 15 October from 12.00 to 13.00 – hosted by PwC.

International Students 16 October from 12.00 to 13.00 – hosted by Student Services (The talk contains a visa element).

CV Clinics

Applying for a job or further study? Need initial advice on your CV?

Attend the CV Clinic at the Fair hosted by exhibiting organisations and Careers Practitioners. Sessions will be held from 12.00-15.00 in the Hartley Suite, Building 38. These sessions are pre-booked via the Careers and Employability Events Calendar at www.student.careers.soton.ac.uk/eventcalendar/ but please check for late availability on the day.

Jobs Board

Many of the Fair exhibitors will be posting their current opportunities on the Jobs Board in the Hartley Lounge.

Students are encouraged to use their smartphones to photograph the advertisements and the QR codes will direct you straight to exhibitor websites.

Visa Information

International Students – Working During Your Studies

International Students on degree-level courses are normally permitted to work up to 20 hours per week during term-time, and full-time in vacations. Students and Tier 4 (General) Migrants on degree-level courses may NOT:

- Work for more than 20 hours per week in term-time
- Engage in business, self-employment or provide services as a professional entertainer or sportsperson
- Pursue a career by filling a full-time, permanent vacancy

Students on Masters courses are expected to be writing their dissertation over the summer vacation and are not deemed to be ‘on vacation’ until their course finishes. They should therefore restrict their hours of work to 20 hours per week until it has. Once their programme has finished, Masters students are treated as being ‘on vacation’ for work purposes for up to 4 months until either they leave the UK (on or before the date their Tier 4 visa expires), or they apply to change their immigration status to another category of the Immigration Rules.

PhD students are entitled to a total of 8 weeks vacation in any one academic year, to be taken by agreement with their supervisor. PhD students who intend to work fulltime in vacations should ensure that this has also been approved by the Tier 4 Compliance Team in Student Records, and that a note to this effect has been placed on their file.

Students who are ‘on vacation’ can work full-time, subject to the restrictions above.

International Students – Working After Studies

Students who have successfully completed their studies will be permitted to switch into Tier 2 (General) from within the UK provided they have a job offer with an employer that holds a Tier 2 sponsor licence and submit a valid application before their Tier 4 leave expires.

Once the employer has issued the Certificate of Sponsorship the applicant should submit an application for ‘Leave To Remain’ (a visa) under Tier 2 (General) but can start working for the employer immediately if the employer is A rated or above. There is no requirement to wait until the visa has been issued.

Applicants applying to switch from Tier 4 (General) to Tier 2 (General) from April 2012 need to meet all of the requirements of Tier 2 but the job will not be subject to the Resident Labour Market Test.

PhD students who pass their viva with minor corrections may be eligible to apply for the Tier 4 Doctoral Extension Scheme (DES) which will give them an additional 12 months of Tier 4 (General) immigration permission in which to look for and start work in the UK. Tier 4 DES visa holders cannot work as a doctor or dentist in training, or as a professional sportsperson or sports coach with this type of visa, but there are no other restrictions on the hours or type of work they can do. DES visa holders who wish to remain in the UK for longer than 12 months would need to ‘switch’ into Tier 2 or another category of the Immigration Rules before their DES visa expires.

Further information

For more information on Tier 2 please see

<https://www.gov.uk/tier-2-general>

and for Tier 4 (DES) see

<https://www.gov.uk/tier-4-general-visa>

You could also contact the Visa Guidance Team by email at visa@southampton.ac.uk

Use the key to identify exhibiting employers which hold a Tier 2 Licence and make sure you discuss your application with them.

Information for Alumni

Getting help with finding your perfect career doesn't have to stop when you leave Southampton. As a member of the alumni community you will be able to access a variety of networks and benefits which could help you both now and in the future.

This includes access to the Careers and Employability Service, meaning you can take advantage of workshops, resources and events to help you find your first graduate job, boost your CV, or even to support you in changing careers later in life.

Alumni Branches

You can also join one of our alumni branches located in the UK and across the world. Branches offer alumni an opportunity to network with people from a variety of sectors and at differing stages of their careers. They may also hold events and sessions aimed at professional development. In addition to the professional networking benefits, branches enable alumni to remain connected with one another as well as to the University and to enjoy socialising with others who have shared the Southampton experience.

Resources available to alumni

- Access to Careers and Employability Service support and events
- Alumni email account for alumni graduating from Summer 2013 onwards, helping you stay in touch with the University and your friends
- 10% discount on postgraduate study
- A network of more than 200,000 Southampton alumni spanning 178 countries
- Access to an exclusive LinkedIn group for Southampton alumni
- Alumni branches in the UK and globally
- Targeted networking and social events
- Use of resources in the University libraries

Give Back

Alumni have a vital role to play in enhancing the employability of current students. In the future you could be on a career panel, mentor a student, give a career talk or represent your place of work at graduate recruitment fairs and career events.

As well as supporting your University, volunteering is a great way to enhance your own skills and experience and to help you in your career progression.

Opportunities with the UK's number one graduate employer

Offices across the UK » Join spring, summer or autumn

Your career is just that; yours. You choose it. You live it. You make it happen. To get the best from it, you need the best opportunities. That's why opportunities are at the heart of a career with us. Opportunities to grow as an individual, to build lasting relationships and make an impact in a place where people, quality and value mean everything. For Omar, this means enjoying the variety of both audit and advisory client work, while balancing the challenges of studying as well. He's making the most of our exam support and study leave to give him the best opportunity to become a qualified accountant. Join PwC – we're focused on helping you reach your full potential.

Take the opportunity of a lifetime

Welcome from our Sponsors

CyberSecurity
Jobsite.com

CyberSecurityJobsite.com is proud to sponsor this event at the University of Southampton.

CyberSecurityJobsite.com is the UK's leading job board for roles within Cyber Security. We work with small private companies through to large blue chip organisations/Government bodies all looking to hire within their Information Security teams. Cyber Crime is expected to cost the UK economy over £27 Billion in 2015 and the anticipated shortfall of Cyber Security professionals by 2020 is 1.5 million worldwide. Cyber Security is THE fastest growing industry so if you are looking for your graduate opportunity why not visit CyberSecurityJobsite.com to search all the latest opportunities available. Alternatively come and visit one of the team on our stand to find out more.

GlaxoSmithKline

GSK is delighted to sponsor this event at the University of Southampton. Your degree is important, but we are equally keen to understand what makes you, you: your motivations, passions and career aspirations. We are a science-led global healthcare company that researches and develops innovative Pharmaceuticals, Vaccines and Consumer Healthcare products. Join us and you'll help us achieve our mission to help millions of people all over the world do more, feel better and live longer. As a company, we invest in developing our people, helping them to realise their full potential: you'll bring your talent and we'll help to develop your skills and career prospects. Visit our stand and ask us questions you can't find on our website!

Here at Dialog we like to do things differently.

On a daily basis our team use a wealth of enthusiasm, creativity and excellence to create innovative products that are used in the world's most sought after devices.

The drive of our engineers has led us to an exciting stage in our development, growing over 3,500 per cent in four years and becoming one of the world's most successful mixed-signal IC design companies.

We are now looking for talented graduates, who want to make a difference with their career; who have the potential to shine; and who want a challenging yet supportive environment in which they can grow.

If you are not yet at the stage for applying for a permanent graduate role, Dialog offers paid placements, internships and master thesis opportunities across the company for students undertaking an undergraduate or postgraduate degree.

For more information please visit:

www.dialog-semiconductor.com/careers

PwC is proud to sponsor the IT, Science and Engineering Fair at the University of Southampton.

Your career is just that; yours. You choose it. You live it. You make it happen. To get the best from it, you need the best opportunities. That's why opportunities are at the heart of a career with us.

And we're proud, based on the opportunity we offer, that students have voted us the number one Graduate Employer in The Times Top 100 Graduate Employers survey for the last ten years.

Take the opportunity of a lifetime.

Sponsor Profiles

Stand 1 | 

GSK

We are a science-led global healthcare company that researches and develops innovative Pharmaceuticals, Vaccines and Consumer Healthcare products to help millions of people do more, feel better and live longer.

Our commercial success depends on creating innovative products and making these accessible to as many people who need them as possible, with a significant commercial presence in more than 150 markets.

Research is fundamental to our business success: in 2014 we spent £3.5 billion in R&D. We are one of the few healthcare companies researching medicines and vaccines for the World Health Organisation's 3 priority diseases - HIV/AIDS, tuberculosis and malaria.

Network Rail is at the heart of revitalising Britain's railway. From the rejuvenation of Kings Cross station and the expansion of Thameslink, to Europe's largest civil engineering project Crossrail – we're involved in some of the most ambitious and diverse ventures the UK has ever seen. We look after the railway on which operating companies run their trains. We're accountable for 30,000 bridges, tunnels and embankments, 20,000 miles of track and thousands of signals. Britain's railway has been growing for 150 years, without significant renewal. And yet it's required to carry more freight and passengers than ever before. We anticipate up to 400 million more passenger journeys by as soon as 2020. So we're building the railway of the future – a better railway for a better Britain.
