

ENGLISH CLASSES FOR

ALL international students, staff & their partners... in fact anyone connected to the university is welcome!

These classes give you the opportunity to learn about the British culture and the English language, e.g. phrasal verbs, idioms, expressions, humour, pronunciation, vocabulary, etc.... and also focus on grammar points, e.g. prepositions, perfects, participles, etc...

The classes begin with language queries, which allows you to ask about any language difficulties you may have found during the previous week and ends with a class discussion for speaking practice.
