Programme Overview

Brief outline of the programme

Archaeology and History both study of the human past in different but complimentary ways: Archaeology through material remains such as buildings, artefacts, and the landscape we inhabit today while History draws on written and oral sources. The BA(Hons) History and Archaeology programme therefore offers a unique opportunity to understand the human past through both historical and archaeological lenses, and to learn how these two disciplines offer different, but equally vital, perspectives on the past. The course enables you to discover different historic and prehistoric periods and to expand your understanding of the past from the first appearance of humans some two million years ago up to the present day.

You will also learn about the methods and techniques that Historians and Archaeologists use to find out about and understand the past: how to use and understand historical sources and to find and excavate archaeological sites, extracting as much information as possible from both materials and records.

Your contact hours will vary depending on your module/option choices. Full information about contact hours is provided in individual module profiles.

Learning and teaching

You will develop your knowledge and understanding through lectures; tutor-led and student-led seminars and tutorials, laboratory practicals, group projects, individual and group presentations, field visits, field work and independent research. At Part One the emphasis is on discovering the nature of Archaeology and History and the relationship between the disciplines. At Part Two you will consolidate and enhance your knowledge of the human past and of both Historical and Archaeological methodology. At Part Three you will specialise in the study of selected periods, regions and themes, as well as carrying out a piece of independent research for your dissertation.

Assessment

Assessments of your knowledge and understanding are very varied, including examinations, essays, extended essays, practical assignments in both the laboratory and the field, presentations, portfolios and the dissertation. Progression is recognised in the assessment scheme, which tests the breadth and complexity of knowledge and understanding through to consolidation and application.

Please note: As a research-led University, we undertake a continuous review of our programmes to ensure quality enhancement and to manage our resources. As a result, this programme may be revised during a student's period of registration, however, any revision will be balanced against the requirement that the student should receive the educational service expected. Please read our Disclaimer to see why, when and how changes may be made to a student's programme.

Programmes and major changes to programmes are approved through the University's programme validation process which is described in the University's Quality handbook.

Special Features of the programme

You will attend a one week field school at the end of your first year, and then participate in a minimum three weeks fieldwork as part of an active research project. This is usually undertaken during the Summer vacation of your first or second year of study and may be in the UK or overseas. Opportunities for undertaking further fieldwork, including participation in overseas research projects, are also available.

You have the opportunity to study abroad for either a semester or a full year as part of this programme. Students on the Year Abroad programme will spend Part Three of their programme at one of the Faculty's partner universities and will continue with Part Four of the curriculum upon return to Southampton in their fourth year. Students who choose to spend a semester abroad will do so in their second year and will continue their Part Two curriculum at the partner university, Part Three of the programme will be completed at Southampton.

All students intending to go abroad are required to take the HUMA2012 preparation module before their departure. For students wishing to go abroad for one semester they will normally complete HUMA2012 during Part One of their programme. For all other students going abroad for a full year they will complete HUM2012 during Part Two of their programme. All students who spend the year abroad are also required to complete HUMA3013 whilst they are away.

Opportunity to Study a Minor Subject

The structure of your degree programme allows you to exercise choice in each year of study. You can exercise this choice in a number of ways.

- You can use these modules to deepen your knowledge of your main subject
- You can combine additional modules from your main subject with modules from other disciplines or choose from a selection of interdisciplinary modules.
- You can choose modules that build into a minor pathway, the title of which will be mentioned in your degree transcript. Details of the minors available and the modules that are included can be found at www.southampton.ac.uk/cip.

Please note: As a research-led University, we undertake a continuous review of our programmes to ensure quality enhancement and to manage our resources. As a result, this programme may be revised during a student's period of registration; however, any revision will be balanced against the requirement that the student should receive the educational service expected. Please read our [Disclaimer](#) to see why, when and how changes may be made to a student's programme.

Programmes and major changes to programmes are approved through the University's [programme validation process](#) which is described in the University's [Quality handbook](#).

Educational Aims of the Programme

The aims of the programme are to:

- Introduce you to the disciplines of archaeology and history.
- Develop your knowledge and understanding of our human societies in the past.
- Enhance your knowledge and understanding of how both material culture and written records inform our understanding of societies both past and present.
- Enhance your ability to read, think and write critically.
- Provide a foundation for you to progress to postgraduate study
- Provide a foundation for you to pursue a career, whether in archaeology, history, a related profession or in some other field

Programme Learning Outcomes

Knowledge and Understanding

On successful completion of this programme you will have knowledge and understanding of:

- A1. the methods used by both archaeologists and historians to investigate past societies;
- A2. the theoretical approaches employed by archaeologists and historians to understand past societies;
- A3. how contemporary issues and political contexts influence our construction of past societies and events;
- A4. the relationship between different forms of evidence (textual and material), argument and interpretation;
- A5. specific chronological periods and geographical areas of the past.

Teaching and Learning Methods

You will develop your knowledge and understanding through lectures; tutor-led and student-led seminars and tutorials, laboratory practicals, group projects, individual and group presentations, field visits, field work and independent research. At Part One the emphasis is on discovering the nature of archaeology and history and the relationship between the disciplines. At Part Two you will consolidate and enhance your knowledge of the human past and of both historical and archaeological methodology. At Part Three you will specialise in the study of selected periods, regions and themes, as well as carrying out a piece of independent research for your dissertation, applying the methods and knowledge you have gained.

Completion of three weeks' fieldwork is a requirement for completion of this programme. In the event that you have a disability or illness that may have implications for your involvement, you should discuss this with your personal tutor and the fieldwork coordinator. Recent research has demonstrated that disabilities need not impact on people's engagement with archaeological fieldwork, but in the event of an impediment we will endeavour to mitigate them or we may substitute another activity. Wherever reasonably possible, efforts will be made to accommodate you, or to provide a suitable alternative study activity.

Assessment Methods

Assessments of your knowledge and understanding include examinations, extended essays and shorter pieces of assessed coursework, individual and group presentations, and the dissertation. Progression is recognised in the assessment scheme, which tests the breadth and complexity of knowledge and understanding through to consolidation and application.

Subject Specific Intellectual and Research Skills

On successful completion of this programme you will be able to:

- B1. handle, describe and interpret archaeological objects and materials;
- B2. evaluate and assess written records and oral statements;
- B3. recognise, describe and interpret archaeological sites in the field;
- B4. make critical judgments on issues and questions;
- B5. carry out basic archaeological techniques for the identification, recovery and recording of field data;
- B6. evaluate the relationship between historical sources, evidence, argument and interpretation;
- B7. undertake a research design, evaluation and application.

Teaching and Learning Methods

Subject- specific skills are integral to the core modules in first part, HIST1151 (World Histories) and ARCH1005 (Archaeological Methods for Fieldwork and Analysis) and to the three- week fieldwork requirement undertaken for ARCH2040 (Professional and Academic Practice). They are further embedded in other modules such as History's Cases and Contexts modules. They are integrated into the higher level modules and in particular, the dissertation.

Assessment Methods

Assessment of your subject- specific skills include examinations, extended essays and shorter pieces of assessed coursework, individual and group presentations and the dissertation. Progression is recognised in the assessment scheme, which tests the breadth of knowledge and understanding through to application.

Transferable and Generic Skills

On successful completion of this programme you will be able to:

- C1. communicate ideas and arguments in a variety of written formats
- C2. communicate ideas and arguments orally and in the context of formal presentations
- C3. identify, select and draw upon a wide range of material, printed and electronic sources
- C4. demonstrate interpersonal skills whilst working with others in the investigation of problems, and in the presentation of arguments and evidence
- C5. demonstrate self-confidence and self-awareness both in collaborative activities and independent study
- C6. collate, synthesise and present empirical data
- C7. design and implement a project of independent research

Teaching and Learning Methods

Your key skills will be developed through tutor-led and student-led seminars and tutorials, IT workshops, library sessions, group projects and independent research. Key Skills are introduced and developed at Part 1 through the compulsory modules and are integrated into tasks at higher levels with increasingly

complex targets for achievement. Team-working is developed through the compulsory archaeological fieldwork module ARCH2040 (Professional and Academic Practice).

Assessment Methods

You will be asked to demonstrate your key skills through participating in individual and group presentations, class exercises, a group project and a dissertation. Progression is recognised in the assessment scheme, which tests key skills at appropriate levels of study.

Subject Specific Practical Skills

On successful completion of this programme you will be able to:

- D1. carry out basic archaeological techniques for the identification, recovery and recording of field data
- D2. recognise, describe and interpret archaeological sites in the field
- D3. carry out basic archaeological techniques for the identification, recovery and recording of field data.

Teaching and Learning Methods

Your practical skills are developed through the compulsory Part 1 module ARCH1005 Archaeological Methods for Fieldwork and Analysis and in the compulsory Part 2 module, including a minimum of three weeks' fieldwork usually undertaken during the summer at the end of your first year, ARCH2040 Professional and Academic Practice. ARCH1005 incorporates lectures to develop your theoretical knowledge of the skills, and practicals where you will have the opportunity to practice them. Archaeological practical skills are further embedded in optional modules at Parts 1, 2 and 3.

Assessment Methods

These skills are assessed by written assignments including essay, exam and portfolio elements.

Programme Structure

The programme structure table is below:

Information about pre and co-requisites is included in individual module profiles.

Where optional modules have been specified, the following is an indicative list of available optional modules, which are subject to change each academic year. Please note in some instances modules have limited spaces available.

Part I

The programme is normally studied over three years full-time, but may also be taken on a part-time basis for a period of not less than four and not more than eight academic years. Study is undertaken at three parts (each corresponding to one year of full-time study). There are 30 study weeks in each year.

The programme is divided into modules. Full time students take modules worth 120 CATS (60 ECTS) per year, usually 60 CATS (30 ECTS) each semester. Archaeology modules are worth 15 CATS (7.5 ECTS) in all three Parts. History option modules are worth 15 CATS (7.5 ECTS) in Part 1, while you can choose between modules worth 15 CATS (7.5 ECTS) or modules worth 30 CATS (15 ECTS) in Part 2; most modules in Part 3 History are worth 30 CATS (15 ECTS) with some 15 CATS (7.5 ECTS) options.

You must take a minimum of 30 CATS (15 ECTS) in each of Archaeology and History per Part. You may not take more than 60 CATS (30 ECTS) at each Part in History; this cap does not apply to Archaeology modules. You may also substitute up to 30 CATS (15 ECTS) as alternative subjects from another discipline or Faculty.

At Part 1, compulsory modules are HIST1151 (World Histories), ARCH1057 Introduction to Archaeological and Anthropological Thought and ARCH1005 Archaeological Methods for Fieldwork and Analysis. You will normally take 2 History Cases and Contexts modules at Part 1 one of which must be pre-1750. At Part 2 you must take either ARCH2040 Professional and Academic Practice, which will be based on a compulsory three-week fieldwork component usually conducted over the summer at the end of your first year. An additional Part 2 compulsory element is ARCH2041 Contemporary Debates and Issues in Archaeology; there are no compulsory modules in History at Part 2. At Part 3 you must write a dissertation; you have the choice of taking either the History or Archaeology dissertation module.

The expected exit award is a BA, and to achieve this you must gain 360 CATS (180 ECTS). If you successfully complete 120 CATS (60 ECTS) at Part 1, you will be eligible for a Certificate of Higher Education, and if you complete 240 CATS (120 ECTS), you will be eligible for a Diploma.

NB: In the following table the pattern is based on the assumption that you are taking 50% Archaeology and 50% History split equally over each semester.

You may choose to substitute up to TWO (i.e. 30 CATS) of the non-compulsory modules for selected alternate modules of equivalent value from another discipline, depending on timetabling constraints and your tutor's and that Faculty's acceptance of you taking the module.

Towards the end of your first year and over the summer, you will engage in at least 3 weeks' fieldwork training on an approved field project. This will normally be undertaken in the summer between Parts 1 and 2. This will be a requirement for the successful completion of second-year compulsory module ARCH2040 (Professional and Academic Practice).

Exit Award: Certificate of Higher Education

Part I Compulsory

In addition you must complete 3 weeks fieldwork training on an approved field project. This will normally be undertaken in the summer between Parts 1 and 2.

Progression Requirements

The programme follows the University's regulations for [*Progression, Determination and Classification of Results : Undergraduate and Integrated Masters Programmes*](#) and [*Progression, Determination and Classification of Results: Postgraduate Master's Programmes*](#) as set out in the University Calendar: <http://www.calendar.soton.ac.uk/sectionIV/sectIV-index.html>

Support for student learning

There are facilities and services to support your learning some of which are accessible to students across the University and some of which will be geared more particularly to students in your particular Faculty or discipline area.

The University provides:

- library resources, including e-books, on-line journals and databases, which are comprehensive and up-to-date; together with assistance from Library staff to enable you to make the best use of these resources
- high speed access to online electronic learning resources on the Internet from dedicated PC Workstations onsite and from your own devices; laptops, smartphones and tablet PCs via the Eduroam wireless network. There is a wide range of application software available from the Student Public Workstations.
- computer accounts which will connect you to a number of learning technologies for example, the Blackboard virtual learning environment (which facilitates online learning and access to specific learning resources)
- standard ICT tools such as Email, secure filestore and calendars.
- access to key information through the MySouthampton Student Mobile Portal which delivers timetables, Module information, Locations, Tutor details, Library account, bus timetables etc. while you are on the move.
- IT support through a comprehensive website, telephone and online ticketed support and a dedicated helpdesk in the Hartley Library.
- Enabling Services offering support services and resources via a triage model to access crisis management, mental health support and counselling. Support includes daily Drop In at Highfield campus at 13.00 – 15.00 (Monday, Wednesday and Friday out of term-time) or via on-line chat on weekdays from 14.00 – 16.00. Arrangements can also be made for meetings via Skype.

- the Student Services Centre (SSC) to assist you with a range of general enquiries including financial matters, accommodation, exams, graduation, student visas, ID cards
- Career and Employability services, advising on job search, applications, interviews, paid work, volunteering and internship opportunities and getting the most out of your extra-curricular activities alongside your degree programme when writing your CV
- Other support that includes health services (GPs), chaplaincy (for all faiths) and 'out of hours' support for students in Halls and in the local community, (18.00-08.00)
- A Centre for Language Study, providing assistance in the development of English language and study skills for non-native speakers.

The Students' Union provides

- an academic student representation system, consisting of Course Representatives, Academic Presidents, Faculty Officers and the Vice-President Education; SUSU provides training and support for all these representatives, whose role is to represent students' views to the University.
- opportunities for extracurricular activities and volunteering
- an Advice Centre offering free and confidential advice including support if you need to make an academic appeal
- Support for student peer-to-peer groups, such as Nightline.

Associated with your programme you will be able to access, under supervision:

- Laboratory facilities, including laboratories for human and animal osteology, ceramics, lithics and isotope studies;
- Extensive equipment resources for fieldwork, geophysical survey, digital imaging and photography;
- Extensive reference collections of ceramics, lithics, animal bone and human bone.

Methods for evaluating the quality of teaching and learning

You will have the opportunity to have your say on the quality of the programme in the following ways:

- Completing student evaluation questionnaires for each module of the programme
- Acting as a student representative on various committees, e.g. Staff: Student Liaison Committees, Faculty Programmes Committee OR providing comments to your student representative to feed back on your behalf.
- Serving as a student representative on Faculty Scrutiny Groups for programme validation
- Taking part in programme validation meetings by joining a panel of students to meet with the Faculty Scrutiny Group

The ways in which the quality of your programme is checked, both inside and outside the University, are:

- Regular module and programme reports which are monitored by the Faculty
- Programme validation, normally every five years.
- External examiners, who produce an annual report
- A national Research Assessment Exercise (our research activity contributes directly to the quality of your learning experience)
- Institutional Review by the Quality Assurance Agency

Further details on the University's quality assurance processes are given in the [Quality Handbook](#).

Career Opportunities

A combined honours History and Archaeology degree is excellent preparation for future employment, offering the best of both disciplines, and providing a range of both practical and intellectual components. These allow graduates to demonstrate many of the abilities that employers are known to look for such as working as part of a team, presentation skills, evidence-based reasoning, problem solving, project management, report writing and independent critical thinking.

A high proportion of our graduates find full-time employment within six months of completing their degree and they follow a very wide range of career paths. Recently, our graduates have found jobs in such diverse areas as accountancy, administration, civil service, cartography and aerial photography, computer engineering and animation, geographic information systems, graphic design, life-guarding, nursing, the police, the armed services, environmental health, countryside management, engineering management, marketing, business, retailing and entertainment management.

The BA (hons) in History and Archaeology is also an ideal preparation for further study (for a Masters or research degree) or for a subject-related career in professional Archaeology, heritage management, digital heritage, museums, research, teaching, geophysical survey, or heritage tourism.

External Examiner(s) for the programme

| | |
|-------|---|
| Name: | Dr James Cole - University of Brighton |
| Name: | Dr Michael W Scott - London School of Economics and Political Science |
| Name: | Dr Uta Andrea Balbier - King's College London |
| Name: | Dr Paul Cavill - University of Cambridge |
| Name: | Dr Jenny Benham - University of Cardiff |
| Name: | Dr Robert Hosfield - University of Reading |
| Name: | Dr Sarah Richardson - University of Warwick |
| Name: | Dr James Corke-Webster - University of Durham |
| Name: | Dr Hannah Holtschneider - New College, Edinburgh |

Students must not contact External Examiner(s) directly, and external examiners have been advised to refer any such communications back to the University. Students should raise any general queries about the assessment and examination process for the programme with their Course Representative, for consideration through Staff: Student Liaison Committee in the first instance, and Student representatives on Staff: Student Liaison Committees will have the opportunity to consider external examiners' reports as part of the University's quality assurance process.

External examiners do not have a direct role in determining results for individual students, and students wishing to discuss their own performance in assessment should contact their Personal Academic Tutor in the first instance.

Please note: This specification provides a concise summary of the main features of the programme and the learning outcomes that a typical student might reasonably be expected to achieve and demonstrate if s/he takes full advantage of the learning opportunities that are provided. More detailed information can be found in the programme handbook.

Appendix 1:

Students are responsible for meeting the cost of essential textbooks, and of producing such essays, assignments, laboratory reports and dissertations as are required to fulfil the academic requirements for each programme of study. In addition to this, students registered for this programme also have to pay for:

Additional Costs

| Type | Details |
|--|--|
| Software Licenses | All software is provided |
| Clothing | One laboratory coat and a pair of safety spectacles are provided at the start of the programme to each student. |
| Field Trips | <p>During your degree you are likely to go on a number of fieldtrips, and to take part in fieldwork. The exact number and nature of these trips will depend on your module and fieldwork choices. However, wherever and whatever you do you are likely to need access to; waterproofs, sturdy shoes or boots, sun hat and a small rucksack. For some sites you may be asked to have steel toed boots.</p> <p>For those qualified to do so, you may become involved in diving projects. In these circumstances you would normally be required to bring/hire your own mask, fins, snorkel, knife, exposure suit and dive watch (and if possible, dive computer).</p> |
| Hardware | It is advisable that students provide their own laptop or personal computer, although shared facilities are available across the University campus. |
| Computer discs or USB drives | Students are expected to provide their own portable data storage device. |
| Stationery | You will be expected to provide your own day-to-day stationary items, e.g. pens, pencils, notebooks, etc.). Any specialist stationery items will be specified under the Additional Costs tab of the relevant module profile. |
| Textbooks | <p>Where a module specifies core texts these should generally be available on the reserve list in the library. However due to demand, students may prefer to buy their own copies. These can be purchased from any source.</p> <p>Some modules suggest reading texts as optional background reading. The library may hold copies of such texts, or alternatively you may wish to purchase your own copies. Although not essential reading, you may benefit from the additional reading materials for the module.</p> |
| Laboratory Equipment and Materials | All laboratory equipment and materials are provided. |
| Placements (including Study Abroad Programmes) | Students on placement programmes can expect to cover costs for health and travel insurance, accommodation and living expenses; travel costs; visa costs. This will vary depending on which country you are travelling to. Specific details on what additional costs there will be are detailed in the individual module profiles which can be found under the modules tab of the programmes details of your programme. |
| Printing and Photocopying Costs | <p>Where possible, coursework such as essays; projects; dissertations is likely to be submitted on line. However, there are some items where it is not possible to submit on line and students will be asked to provide a printed copy.</p> <p>A list of the University printing costs can be found here: http://www.southampton.ac.uk/isolutions/students/printing/</p> |

In some cases you'll be able to choose modules (which may have different costs associated with that module) which will change the overall cost of a programme to you. Details of such costs will be listed in the Module Profile. Please also ensure you read the section on additional costs in the University's Fees, Charges and Expenses Regulations in the University Calendar available at www.calendar.soton.ac.uk.
