

Programme Specification

Specialist Community Public Health Nursing (2020-21)

This specification provides a concise summary of the main features of the programme and the learning outcomes that a typical student might reasonably be expected to achieve and demonstrate if s/he takes full advantage of the learning opportunities that are provided.

Awarding Institution	University of Southampton
Teaching Institution	University of Southampton
Mode of Study	Part-time
Duration in years	1
Accreditation details	None
Final award	Master of Science (MSc)
Name of award	Specialist Community Public Health Nursing
Interim Exit awards	
FHEQ level of final award	Level 7
UCAS code	
Programme code	8327
QAA Subject Benchmark or other external reference	Master's Degree Characteristics 2016
Programme Lead	Lyn Wilson

Programme Overview

Brief outline of the programme

As a University of Southampton student when you complete your PGDip you have the option to return to 'top-up' the diploma to MSc. The Master of Science Top-up Award aims to enhance your knowledge base and skills to be a critically aware practitioner able to appraise and, if necessary, challenge practice. You will be enabled to use effectively a philosophy of care that is based on evidence, to develop and lead service provision that meets the needs of a 21st century health and social care service. This is a part-time programme which commences each September. You need to commence the programme within three years of completing your Postgraduate Diploma.

Your contact hours will vary depending on your module/option choices. Full information about contact hours is provided in individual module profiles.

Learning and teaching

The University of Southampton is committed to developing learners who are able to develop a reflective and problem-solving approach to their practice by acquiring knowledge and skills in a contextual, integrated manner. We promote student-centred approaches and recognise the value of learning from past and current experiences as well as the introduction of new knowledge. We aim to support you to be an independent life-long learner able to plan and manage your own learning. Learning and teaching methods are designed to integrate theory with practice, to foster a spirit of enquiry and to encourage new ways of thinking.

Learning will be facilitated by a variety of teaching methods including: formal lectures, seminars, enquiry and work-based learning, case studies, workshops, group work, web-based learning and self-directed study.

Assessment

The assessment methods encountered in the Post Graduate Diploma in Public Health Practice: Specialist Community Public Health Nursing (SCPHN) have enabled you to demonstrate achievement of the programme learning outcomes as you progressed through each module. You encountered a variety of approaches to assessment that helped you demonstrate your knowledge and understanding through utilisation of a range of study skills. The programme assessment methods are designed to help you integrate theory with practice, develop your skills of critical thinking and analysis and achieve mastery in your field of public health nursing. In the dissertation modules formative and summative assessment methods will be used to help you meet the learning outcomes of the module and Award.

Special Features of the programme

There are no special features in this programme.

Please note: As a research-led University, we undertake a continuous review of our programmes to ensure quality enhancement and to manage our resources. As a result, this programme may be revised during a student's period of registration; however, any revision will be balanced against the requirement that the student should receive the educational service expected. Please read our [Disclaimer](#) to see why, when and how changes may be made to a student's programme.

Programmes and major changes to programmes are approved through the University's [programme validation process](#) which is described in the University's [Quality handbook](#).

Educational Aims of the Programme

The aims of the programme are to: The MSc Specialist Community Public Health Nursing Studies is a modular postgraduate programme open only to students who have successfully completed the University of Southampton Post Graduate Diploma in Public Health Practice: Specialist Community Public Health Nursing [SCPHN] (all pathways).

To achieve the award of MSc Specialist Community Public Health Nursing Studies you must successfully complete the compulsory 30 ECTS dissertation module: HLTH code TBC. On successful completion of the module, you will surrender your PG Diploma credits to receive MSc Specialist Community Public Health Nursing Studies.

The academic module requires attendance (in person or online) at supervision groups, the submission of a formative research proposal and the undertaking of a substantial piece of independent study. You will be supported by an academic supervisor.

The Master of Science Specialist Community Public Health Nursing Studies award aims to enable you to enhance your knowledge base and skills to be a critically aware practitioner able to appraise and, if necessary, challenge practice. You will be enabled to use effectively a philosophy of care that is based on evidence, to develop and lead service provision that meets the needs of a 21st century health and social care service. On successful

completion of the programme you will have achieved the aims of the Post Graduate Diploma in Public Health Practice: Specialist Community Public Health Nursing [SCPHN] AND achieve these aims:

- a) Develop mastery in specialist community public health nursing practice through advancing your analytical skills, public health knowledge and communication skills.
- b) Use and evaluate research utilising sound methodological principles which are appropriate to specialist community public health nursing.

Programme Learning Outcomes

Having successfully completed this programme you will be able to demonstrate knowledge and understanding of:

Knowledge and Understanding

On successful completion of this programme you will have knowledge and understanding of:

- A1. The philosophical foundations and theoretical perspectives of nursing practice;
- A2. Anatomical, physiological, neurological, biomechanical, psycho-sociological and pathological principles related to human health and wellbeing;
- A3. The bio-psychosocial model of disability and the impact on the individual's participation in society;
- A4. Clinical governance and evidenced based practice in your chosen field of nursing based on a systematic appraisal of established research findings;
- A5. Systematic and critical evaluation of research findings to generate new knowledge within your chosen field of nursing practice;
- A6. Ethical, moral and legal issues in relation to your chosen field of nursing practice to make sound judgements in both simple and complex clinical situations while exercising critical non-discriminatory decisions;
- A7. The changing and diverse nature of health and social care provision in private, public and third sector organisations including structure, political and policy drivers.
- A8. Demonstrate knowledge and understanding of the evidence that underpins effective public health nursing interventions and services.
- A9. Demonstrate knowledge and understanding of the interpretation and critique of quantitative and qualitative research methods used to develop the public health nursing practice evidence base.

Subject Specific Intellectual and Research Skills

On successful completion of this programme you will be able to:

- B1. Work autonomously and with accountability in relation to complex clinical decision making while recognising your own limitations and your relationship/responsibility within health care provision;
- B2. Demonstrate the skills of independent reflection necessary to continuously learn and meet the challenge of pursuing excellence in the delivery of values-based health care;
- B3. Engage intellectually with the subject underpinned by a curiosity and openness to new ideas, methods and ways of thinking such that you are able to reflect critically and systematically on your and other professionals' practice;
- B4. Critically analyse and interpret a range of data and evidence for effective public health nursing practice.
- B5. Undertake critical recognition and creative reflection upon fiscal dilemmas concerning the funding and ethics of modern health & social care;
- B6. Make holistic assessment and identification of the needs of individuals, their families and carers from a physical, psychological, environmental, social, emotional and spiritual perspective to understand and value the diversity and complexity of human behaviour and interaction;
- B7. Safe practice - ensuring the safety of yourself as a practitioner, your client and others who utilise your service through need/ risk assessment and appropriate and timely management;
- B7. Adopt a creative approach to problem resolution and to make critical judgements supported by an ability to locate effectively, analyse and evaluate information.
- B8. Undertake an independent research project relevant to your field of practice.
- B9. Reflect critically on the ethical and legal issues related to public health nursing research and practice, including the importance of data confidentiality, disclosure, ethical dilemmas and data sharing protocols.
- B10. Demonstrate proficiency and creativity in the planning and delivery of services which reflect modern complex health and social care needs based on sound rationale, ethical and professional principles and the best available evidence.

Transferable and Generic Skills

On successful completion of this programme you will be able to:

- C1. Autonomous and team working practice utilising leadership skills;
- C2. Selecting and applying verbal, written, numerical and visual literacy skills so as to communicate in a variety of forms to a multiplicity of audiences;
- C3. Using technology to work, research, learn, present ideas or data so as to influence others in an increasingly digital world;
- C4. Critical analysis and evaluation of academic, clinical and professional performance;
- C5. Effective time management and prioritisation of workload to sustain efficient and effective practice;
- C6. Promoting the safety, rights, dignity and diversity of clients, their families and your colleagues;
- C8. Creative and innovative problem-solving by applying theoretical concepts to practical situations;
- C9. Utilising and responsibly applying information management/technologies to support learning, evidenced based practice and research activities;
- C10. Managing change effectively and responding with ethical appropriateness to changing service demands;

- C11. Advocating for and empowering individuals and families to take responsibility for their own health;
- C12. Communicate public health nursing practice evidence effectively using a range of communication methods and showing sensitivity to the specific needs of the potential audience.

Programme Structure

The programme structure table is below:

Information about pre and co-requisites is included in individual module profiles.

Part I

To achieve the MSc Specialist Community Public Health Nursing Studies award you must complete the compulsory 30 ECTS (level 7) dissertation module: HLTH6123 or HLTH6124. This module is attended on a part time basis.

Programme Requirements

The MSc Specialist Community Public Health Nursing Studies is a modular postgraduate programme open only to students who have successfully completed the University of Southampton Post Graduate Diploma in Public Health Practice: Specialist Community Public Health Nursing [SCPHN] (all pathways). The Post Graduate Diploma in Public Health Practice: Specialist Community Public Health Nursing [SCPHN] programme is delivered in modules of learning and is normally completed in 1 year full time study.

The dissertation module, and hence the MSc award programme, must be commenced within four years of completing the PG Diploma and can only be entered after successful completion of the Post Graduate Diploma in Public Health Practice: Specialist Community Public Health Nursing [SCPHN].

Code	Module Title	ECTS	Type
HLTH6214	MSc Dissertation 10 month 2020-21	30	Core
HLTH6213	MSc Dissertation 18 month 2020-21	30	Core

Progression Requirements

The programme follows the University's regulations for [Progression, Determination and Classification of Results : Undergraduate and Integrated Masters Programmes](#) and [Progression, Determination and Classification of Results: Postgraduate Master's Programmes](#) Any exemptions or variations to the University regulations, approved by AQSC are located in [section VI of the University Calendar](#).

Support for student learning

There are facilities and services to support your learning some of which are accessible to students across the University and some of which will be geared more particularly to students in your particular Faculty or discipline area.

The University provides:

- library resources, including e-books, on-line journals and databases, which are comprehensive and up-to-date; together with assistance from Library staff to enable you to make the best use of these resources
- high speed access to online electronic learning resources on the Internet from dedicated PC Workstations onsite and from your own devices; laptops, smartphones and tablet PCs via the Eduroam wireless network. There is a wide range of application software available from the Student Public Workstations.
- computer accounts which will connect you to a number of learning technologies for example, the Blackboard virtual learning environment (which facilitates online learning and access to specific learning resources)
- standard ICT tools such as Email, secure filestore and calendars.
- access to key information through the MySouthampton Student Mobile Portal which delivers timetables, Module information, Locations, Tutor details, Library account, bus timetables etc. while you are on the move.
- IT support through a comprehensive website, telephone and online ticketed support and a dedicated helpdesk in the Hartley Library.
- Enabling Services offering support services and resources via a triage model to access crisis management, mental health support and counselling. Support includes daily Drop In at Highfield campus at 13.00 – 15.00 (Monday, Wednesday and Friday out of term-time) or via on-line chat on weekdays from 14.00 – 16.00. Arrangements can also be made for meetings via Skype.
- assessment and support (including specialist IT support) facilities if you have a disability, long term health problem or Specific Learning Difficulty (e.g. dyslexia).
- the Student Services Centre (SSC) to assist you with a range of general enquiries including financial matters, accommodation, exams, graduation, student visas, ID cards
- Career and Employability services, advising on job search, applications, interviews, paid work, volunteering and internship opportunities and getting the most out of your extra-curricular activities alongside your degree programme when writing your CV
- Other support that includes health services (GPs), chaplaincy (for all faiths) and 'out of hours' support for students in Halls and in the local community, (18.00-08.00)
- A Centre for Language Study, providing assistance in the development of English language and study skills for non-native speakers.

The Students' Union provides

- an academic student representation system, consisting of Course Representatives, Academic Presidents, Faculty Officers and the Vice-President Education; SUSU provides training and support for all these representatives, whose role is to represent students' views to the University.
- opportunities for extracurricular activities and volunteering
- an Advice Centre offering free and confidential advice including support if you need to make an academic appeal
- Support for student peer-to-peer groups, such as Nightline.

At the programme level you will be able to access:

- An induction programme to support your transition to undertaking a research module
- Student handbooks to support your studies and to explain assessment regulations
- An introduction to the library and Information Technology (IT)
- Computer workstations
- A student representative system and staff/student liaison committee so that your views on the programme can be heard both during the teaching periods and after the modules are completed
- The Programme Lead, who will be responsible for overseeing your progress throughout your programme and will be responsible for the overall management of the Programme and for any student issues outside the remit of or referred by the module leaders, personal tutors or dissertation supervisors
- In consultation with the Programme Lead you will identify, or you will be allocated, a supervisor for your Dissertation.

Methods for evaluating the quality of teaching and learning

You will have the opportunity to have your say on the quality of the programme in the following ways:

- Completing student evaluation questionnaires for each module of the programme.

- Acting as a student representative on various committees, e.g. Staff/Student Liaison Committees, School Programmes Committee OR providing comments to your student representative to feedback on your behalf.
- Serving as a student representative on Faculty Scrutiny Groups for programme validation.
- Taking part in programme validation meetings by joining a panel of students to meet with the Faculty Scrutiny Group.

Further details on the University's quality assurance processes are given in the [Quality Handbook](#).

Career Opportunities

n/a

External Examiner(s) for the programme

Name: Gibson D'Cruz

Students must not contact External Examiner(s) directly, and external examiners have been advised to refer any such communications back to the University. Students should raise any general queries about the assessment and examination process for the programme with their Course Representative, for consideration through Staff: Student Liaison Committee in the first instance, and Student representatives on Staff: Student Liaison Committees will have the opportunity to consider external examiners' reports as part of the University's quality assurance process.

External examiners do not have a direct role in determining results for individual students, and students wishing to discuss their own performance in assessment should contact their Personal Academic Tutor in the first instance.

Please note: This specification provides a concise summary of the main features of the programme and the learning outcomes that a typical student might reasonably be expected to achieve and demonstrate if they take full advantage of the learning opportunities that are provided. More detailed information can be found in the programme handbook.

Appendix 1:

Students are responsible for meeting the cost of essential textbooks, and of producing such essays, assignments, laboratory reports and dissertations as are required to fulfil the academic requirements for each programme of study. In addition to this, students registered for this programme also have to pay for:

Additional Costs

Type	Details
Printing and Photocopying Costs	It may be possible to submit coursework on line. However, where it is not possible to submit on line students will be asked to provide a printed copy.
Stationery	You will be expected to provide your own day-to-day stationery items, e.g. pens, pencils, notebooks, etc. Any specialist stationery items will be specified under the Additional Costs tab of the relevant module profile.
Textbooks	<p>Where a module specifies core texts these should generally be available on the reserve list in the library. However due to demand, you may prefer to buy your own copies. These can be purchased from any source.</p> <p>Some modules suggest reading texts as optional background reading. The library may hold copies of such texts, or alternatively you may wish to purchase your own copies. Although not essential reading, you may benefit from the additional reading materials for the module.</p>

In some cases you'll be able to choose modules (which may have different costs associated with that module) which will change the overall cost of a programme to you. Details of such costs will be listed in the Module Profile. Please also ensure you read the section on additional costs in the University's Fees, Charges and Expenses Regulations in the University Calendar available at www.calendar.soton.ac.uk.
