

GRADUATION CEREMONIAL PROGRAMME

**CONGREGATIONS
FOR THE CONFERMENT
OF AWARDS**
Class of 2020

CONGRATULATIONS ON YOUR GRADUATION

I would like to take the opportunity to welcome you to the University of Southampton, alongside your family and friends. Congratulations on all your achievements while at Southampton.

Graduation at Southampton is a truly memorable occasion and a chance to receive well-deserved recognition for all your hard work and dedication in the achievement of your degree. Here at Southampton, we are very proud of you and you should be similarly proud of all you have achieved, individually and collectively. I am sure you will enjoy this very special day with your family and friends and everyone who has supported you along the way.

There are a number of milestone moments in life and graduating from university is one of them. The completion of your degree and celebration of your achievements are even more impressive in light of the uncertainty and challenges of the COVID-19 pandemic. Please take the time to reflect on your own journey and what this means for you personally. For many of you, this may represent the end of your journey as a student and the start of your wider contribution to society. With the expanded knowledge you have gained through your studies and the skills you have developed as a result, you are now well equipped for the future. You have shown that you have the motivation to learn new things, which will set you in good stead for the next steps in life.

In this our 70th anniversary year, it is important to reflect on our journey as a university. Since 1952, more than 250,000 students have been awarded degrees from the University of Southampton. During that time, we have built our reputation as a leading national and international higher education institution with a global reputation for research, innovation and enterprise. The commitment and contribution of our academic staff, and the talent and hard work demonstrated by you, as our students, has made this success possible.

I am delighted to congratulate you personally on the award of your University of Southampton degree. We share in your pride and wish you every success. We welcome you as a lifelong member of our alumni community and I hope your experiences and memories from Southampton stay with you and form the foundation for a lasting relationship with the University.

Professor Mark E. Smith CBE
President and Vice-Chancellor
University of Southampton

YOU ARE PART OF OUR SUCCESS STORY

As a Southampton graduate, you are part of our distinguished 150 years of history.

During your time here, through your studies and extra-curricular activities, you have contributed to the vibrant and successful institution the University of Southampton is today.

Our history

You may already know that the University of Southampton received its Royal Charter on 29 April 1952, in the early weeks of the reign of HM Queen Elizabeth II. In fact, our roots go back much further than this – to 1862. This is when the Hartley Institution was established in the city centre, following a bequest by Henry Robinson Hartley, the son of a local wine merchant, to the Corporation of Southampton. Located in Below Bar, the Hartley Institution was opened by the then Prime Minister, Lord Palmerston.

In 1902 it was renamed Hartley College, before becoming Hartley University College and, later, University College, Southampton. The Hartley name is still remembered in the Hartley Library that we all know and love.

Top 100
global University

QS World University Rankings, 2023

Today's university

This year marks a very auspicious anniversary for our University. Exactly 70 years ago, we were honoured to be the first University to be granted a Royal Charter by The Queen, two months after her accession to the throne.

The Royal Charter enabled Southampton for the first time to award its own degrees as a fully independent university, after many years as a degree-awarding branch of the University of London.

We've come a long way in 70 years; from a student cohort of around 850 undergraduate and postgraduate students, we now have over 24,500 studying across our campuses in Southampton, Winchester and Malaysia. We welcome and support bright and motivated students from over 135 countries to be the best they can be, pioneer flexible learning and encourage interdisciplinary practice across our academic community.

Top 150

institution for employability
worldwide

QS World University Rankings, 2022

We have also built a strong national and international reputation for our research and teaching excellence. We are a founding member of the Russell Group, consistently placed in the top 100 universities in the world* and we have a strong demonstrated continuous commitment to the quality of our teaching.

Innovative thinking and pioneering research are at the heart of our culture; our people are finding solutions for some of the biggest challenges that our planet is facing, pursuing environmental sustainability, and making a difference to the world.

This is the place where fibre-optic research is creating a faster, smarter internet; where the immune system is leading the fight against cancer; where expertise is tackling the growing threat of antimicrobial resistance, where resources are being secured for the world's growing populations, and through the humanities, we better understand the world.

We stand for exploration and curiosity, interdisciplinary thinking, inventive education and cutting-edge facilities to catalyse change. We inspire minds, bring people and ideas together and give them the space and support to grow, create, ignite, and realise their potential.

Team Southampton has
won the last 8
Varsity tournaments
 against University of Portsmouth

More than
250,000 alumni
spanning
over **180 countries**

The future

Our 70th anniversary is a timely reminder that all of us in our University community, whatever our role, are custodians of an exceptional institution, one with a history we should all be proud of, and with a future that will prove even more remarkable.

As well as your degree and the lifelong friendships you have made, you are starting the next chapter of your life with a wealth of experiences that will help you shape your future into what you want it to be.

Many of you have participated in original research, undertaken work placements, been involved in enterprise activities, or spent time studying abroad at one of our partner institutions. You may also have taken on active roles in Students' Union clubs and societies or volunteering projects.

“Being involved in co-curricular activities such as sport is one of the best ways to enhance student experience at university. With one of the largest range of sports clubs in the country, it gives students at Southampton an excellent opportunity to meet new people and grow as individuals. Sport at Southampton relies on the phenomenal contribution and work of volunteers in committee roles. The skills that students develop through these voluntary roles will no doubt set them apart from other graduates; I congratulate all of those awarded Athletic Union Colours.”

Matthew Smith
Vice-President Sports
University of Southampton Students' Union

These experiences make you, our graduates, stand out in today's competitive jobs market. They will enable you to excel in your future – whichever career path you choose to pursue. You are an important part of our story. Your achievements – both now and in the future – reflect on your university, while our successes enhance the value of your Southampton degree.

HONORARY GRADUATES

Professor Sir Ian Diamond
DL FRSE FBA FAcSS
Doctor of Science

Since August 2018, Sir Ian has been the National Statistician and Permanent Secretary of the Office for National Statistics.

Prior to this role he was Chief Executive of the Economic and Statistics Research Council, from 2003–2010, and Principal and Vice-Chancellor of the University of Aberdeen, from 2010–2018. These roles followed almost 23 years at the University of Southampton where he was Lecturer, Professor, Head of Social Statistics, Dean of Social Sciences and Deputy Vice-Chancellor.

Sir Ian is a passionate teacher and researcher who has worked on the analysis of large and complex data sets most notably in population, and on census design and analysis. His research has crossed many disciplinary boundaries and he has worked with several government departments both in the UK and internationally.

He is currently chairing the Independent Commission for the Future of College Education, and Plan International UK. He has also chaired British Universities and Colleges Sport, Lloyds Bank Foundation for England and Wales, and Edinburgh College of Further Education.

Sir Ian has also been, or is, a board member of: WWF UK; UK Research and Innovation; UCAS; Universities UK; Lancaster University; and the Iona Cathedral Trust.

Dr Hayaatun Sillem CBE FIEY
Doctor of Science

Hayaatun is Chief Executive Officer of the Royal Academy of Engineering and of the Queen Elizabeth Prize for Engineering Foundation.

She has extensive leadership experience in UK and international engineering, innovation, and diversity and inclusion activities. She chairs the UK government's Business Innovation Forum and the St Andrews Prize for the Environment.

Recently she co-chaired, with Sir Lewis Hamilton, his Commission on improving Black representation in UK motorsport. She is a trustee of Engineering UK and the Foundation for Science and Technology.

Hayaatun is a member of the UK government's Levelling Up Advisory Council; a director of UNBOXED: Creativity in the UK; and an advisor to AccelerateHER and the Lloyd's Register Foundation. She has been named as one of the 'Inspiring 50 Women in Tech' and one of the most influential women in engineering.

She has a Master's in Biochemistry from University of Oxford and a PhD from Cancer Research UK/University College London. In 2019, she was awarded a CBE for services to international engineering and in 2021 she won a Science Suffrage Award.

Prior to her current roles, Hayaatun was Deputy Chief Executive Officer at the Royal Academy and served as Committee Specialist and later Specialist Adviser to the House of Commons Science and Technology Committee.

Admiral Sir Tony Radakin
KCB ADC

Doctor of Law

Tony has been Chief of the Defence Staff, the professional head of the British Armed Forces, since November 2021. Previously, he was First Sea Lord and Chief of the Naval Staff.

Commissioned in 1990, Tony's operational service has involved: the Iran/Iraq Tanker War; security duties in the Falklands; NATO embargo operations in the Adriatic; countering smuggling in Hong Kong and the Caribbean; and three command tours in Iraq.

He has commanded from Lieutenant to Rear Admiral of ashore, afloat and international forces. This includes: HMS Blazer, the sea training vessel for Southampton University Royal Navy Unit; HMS Norfolk; the Naval Training team in Iraq; the Iraqi Maritime Task Force; Portsmouth Naval Base; Commander of UK Maritime Forces; and NATO's High Readiness Maritime Component Commander.

His staff appointments have included: operational planning at Permanent Joint Headquarters; two tours as a military assistant; and two tours involving financial, capability and strategic force development. More recently, he was Chief of Staff of the Joint Forces Command (2016–2018) and Second Sea Lord (2018–2019).

His education includes: reading law at Southampton; qualifying as a barrister; an MA in International Relations and Defence Studies; the Higher Command and Staff Course; and the London Business School's Senior Executive Programme. He has also graduated from several US courses.

Professor Derrick Swartz
Doctor of Letters

Derrick Swartz is a science advisor, higher education leader and democratic activist in South Africa.

He is currently serving as Special Advisor to the Minister of Higher Education, Science and Innovation, working on 'grand challenges' in climate change, renewable energy, health, food sovereignty and sustainability economic development.

Derrick is a development sociologist by training, having studied in SA and the UK, with master's and doctoral degrees in sociology of development from the University of Essex.

In the pre-democracy period, he was a leading anti-apartheid activist and spent many years in exile, returning to South Africa after the release of Nelson Mandela and other political prisoners in the early 1990's.

He became South Africa's youngest Vice-Chancellor at University of Fort Hare (1999–2007) and campaigned for the democratisation and transformation of higher education: promoting greater access to previously marginalised sections of society; deepening the involvement of universities in the local community; and stimulating more diverse university-industry links. He also served as Vice-Chancellor of Nelson Mandela University (2008–2018).

In 2005, under his leadership the University of Fort Hare was awarded the Supreme Order of Boabab (Gold Class) in recognition of its distinguished service in higher education and leadership development for over a century.

Stefan Cross QC
Doctor of Letters

Stefan is recognised as one of the UK's leading employment lawyers; his pioneering equal pay litigation has changed the legal landscape.

Stefan, a working-class boy on free school meals, graduated with a LLB Law degree from Southampton in 1982. After training in Bournemouth, he joined trade union solicitors Thompsons in Newcastle, took an LLM in employment law, pioneered claims for redundancy consultation, transfer of undertakings and multi-applicant claims, especially equal pay.

From 2003 to 2013 his own firm, Stefan Cross Solicitors, conducted more than 30,000 successful equal pay claims against more than 100 local authorities in England and Wales, directly and indirectly, recovering more than £2bn for low paid women and men.

Stefan set up Action 4 Equality Scotland Ltd in 2005 to pursue claims in Scotland. He has since been involved in more than 100,000 claims recovering more than £1.2bn leading to the Glasgow Women's Equal Pay Strike in 2018.

In 2013, he was appointed as an Honorary Queen's Counsel (QC) in recognition of his contribution to pay equality, one of only a small number of solicitors to be awarded this venerable distinction.

Stefan has maintained a close relationship with the University. In 2018, he launched The Stefan Cross Centre for Women, Equality and Law on Highfield Campus, designed to raise awareness of discrimination against women and girls, investigate the causes of this discrimination and seek effective solutions.

CEREMONIAL OFFICERS

Our graduation ceremonies will be presided over by one of our senior officers below.

Professor Mark E. Smith

President and Vice-Chancellor

As President and Vice-Chancellor, Mark is the Chief Executive of the University and has overall responsibility for its operations. He took up this role on 1 October 2019.

Mark was Vice-Chancellor at Lancaster University from 2012 until September 2019. He was previously Deputy Vice-Chancellor of the University of Warwick.

Throughout his academic career, he has published more than 380 papers about advanced magnetic resonance techniques, helping to understand a range of problems in the field of materials physics.

Mark holds several external appointments including membership of the Higher Education Statistics Agency (HESA) Board; Senior Independent Member of UKRI EPSRC's Council; and board member of the Higher Education Funding Council for Wales, chairing their Research Wales Committee.

He was awarded a CBE for Services to Research and Higher Education in the 2019 Queen's Birthday Honours.

Professor Mark E. Smith

Philip Greenish

Philip Greenish

Chair of Council

Philip was appointed chair of Council on 1 August 2018, having served on the University's governing body since 2012.

Philip was Chief Executive of the Royal Academy of Engineering from June 2003 until December 2017. He served in the Royal Navy from 1969 until 2003, retiring as a Rear Admiral having had responsibility in his final role for engineering, personnel, and logistic support for the front line of the Royal Navy and Royal Marines.

He was educated at Cheltenham College and Durham University where he read Engineering Science, graduating in 1972, and he is a graduate of the Royal College of Defence Studies. He is a chartered engineer, an Honorary Fellow of the Royal Academy of Engineering, a Fellow of the Institution of Engineering and Technology and a Liveryman of the Worshipful Company of Engineers. He was a Board member of Engineering UK from 2008 to 2018 and has served as a Council member on two of the UK's Research Councils. He was awarded the CBE in 2003.

Dame Veronica Sutherland

Pro-Chancellor

Dame Veronica studied German at the Universities of London and later Southampton, where she gained an MA. She joined the Diplomatic Service, serving overseas as the British Delegate to UNESCO. In 1987 she was appointed Ambassador to the Ivory Coast, Burkina Faso, and Niger.

She retired in 1999, after four years as Ambassador in Dublin, and was Deputy Secretary General (Economic and Social) in the Commonwealth Secretariat. She was President of Lucy Cavendish College, University of Cambridge (2001–2008) and is now involved in various charities.

Dame Veronica Sutherland

Jon Soper

Jon Soper

Pro-Chancellor

Journalist and broadcaster Jon Soper has enjoyed a distinguished career with the BBC, most notably as North America Editor based in Washington, DC. Jon is currently working for LBC to launch a new podcast and joint radio show with fellow presenter Emily Maitlis.

Jon is the author of an acclaimed biography of Tony Blair and *If Only They Didn't Speak English: Notes from Trump's America*. His most recent book, *A Year at the Circus: Inside Trump's White House*, was released in September 2019. An alumnus of the University, Jon has a long association with Southampton.

UNIVERSITY OF SOUTHAMPTON ACADEMIC DRESS

Your graduation ceremony is all about you! It is your chance to celebrate your amazing achievements with your peers, University staff, friends and family.

It is the moment that your years of study and dedication to your subject have been leading up to; a moment that, we hope, you will cherish and look back on fondly for the rest of your life.

Celebration schedule

- The congregation is asked to stand as the procession enters the stadium and to remain standing until the Presiding Officer and members of the procession have taken their seats.
- The Presiding Officer will declare graduation open and address the congregation.
- The reader will read the degree classifications to be awarded and graduands will process across the stage.
- The Dean of Faculty or their nominated officer will address the congregation.
- If there is an award for a higher doctorate, these will be presented next.
- The Presiding Officer will address the congregation and declare graduation closed.
- The congregation is requested to stand for the procession and remain in their seats until the entire procession has left the stage.

Order of procession

- The procession will enter the ceremonial hall in the following order:
- The Academic Marshal (carrying the Jubilee Mace)
 - Members of University staff
 - The University Marshal (carrying the University Wand)
 - Representatives from the Student's Union
 - Representatives from the Faith and Reflection Centre
 - Directors of Professional Services
 - Members of the University Executive Board
 - Honorary Graduands (if attending)
 - The University Orator (if attending)
 - The Dean and senior members of faculties
 - The vice-presidents
 - The pro chancellors
 - The Chancellor (if attending)
 - The Graduand Presenter/Reader
 - The President and Vice-Chancellor (if not presiding)
 - The Presiding Officer
 - Esquire Bedell (carrying the Foundation Mace)

Traditional university costume has endured for centuries

Celebration robes and silk colours

Traditional university costume has endured for centuries and is a symbol of the prestige and importance of the degree award you are receiving today. The academic dress worn by members of the procession differs depending on their role in the celebration. Some officers and university staff will also wear robes from the universities where they took their degrees.

Your academic robes and colour of silks will depend on the degree subject and classification that you are being awarded today. Our University colours are explained here.

Athletic Union Colours

You may also be being recognised for your role in sports during your time at Southampton. Athletic Union Colours are among the highest accolades bestowed by the Students' Union to students for exceptional contribution to sport at the University.

Celebration venue: St Mary's Stadium

To reflect the size and importance of this year's Graduation celebrations, where the classes of 2020, 2021 and 2022 can come together with their friends and family in recognition of their fantastic academic achievements, our prestigious venue is St Mary's Stadium.

St Mary's Stadium is an all-seater football stadium, which has been the home of Premier League Southampton Football Club since 2001. The stadium is currently the largest football stadium in South East England.

Athletic Union Colours

The criteria for Colours are as follows:

CLUB COLOURS: Outstanding dedication to the organisation of a club, as well as representing Team Southampton and the University in their sport.

HALF COLOURS: Excellent sporting performance, achieving a high level of success for their club and competing up to national level.

FULL COLOURS: Elite level sporting performance, collecting national accolades and competing at an international level.

Declaration for BMBS Graduation

This Declaration is based on the General Medical Council's 'Duties of a Doctor' and has been written by Yiwen Soo, University of Southampton medical graduate 2019, with support from peers.

Today I graduate from the University of Southampton. I declare to uphold my duties as a doctor to you.

I shall make the care and safety of patients my priority. I shall do my utmost To protect your health, rights and dignity.

I shall heed your concerns And respect your decisions On your care and treatment.

I recognise that Medicine is also an art.

I will treat you as an individual With compassion, courage and integrity.

Discrimination and abuse will not be welcome in my practice Not against my patients, Not against my colleagues.

I shall keep my knowledge up to date. I shall acknowledge my mistakes, Address them and learn from them.

I will recognise the limits of my competence, seek help and work together with colleagues to best serve my patients.

I shall be prepared To justify my actions, my

*indicates first-class honours or distinction.

decisions and to take responsibility for all I do.

Honesty and integrity
Will be my way
To earn your trust.
It shall be a privilege, an honour,
To work FOR you
And WITH you
And with EACH OTHER
To care for YOUR health and well-being.

Today I make this declaration
To fulfil the duties of a doctor
To you and to myself.

RESEARCH EXCELLENCE

With our world-leading research and innovative ideas, we tackle global challenges and inspire change to benefit society.

Professor Peter Kazansky with Professor Sir David Payne, Optoelectronics Research Centre

FITTING A LIBRARY IN YOUR HAND

Scientists at the University of Southampton's Optoelectronics Research Centre have developed a digital data storage solution that can contain the complete history of human knowledge – and is able to survive for billions of years.

Using nanostructured glass, the research team led by Professor Peter Kazansky has developed the recording and retrieval processes of five dimensional (5D) digital data by femtosecond laser writing, which means you could hold an entire library's information in the palm of your hand.

A 5D memory crystal, containing the Foundation Trilogy of science fiction books written by Isaac Asimov, recently launched into orbit around the sun inside a Tesla Roadster, owned by SpaceX CEO Elon Musk, aboard the Falcon Heavy spacecraft.

"It is thrilling to think that we have created the technology to preserve documents and information and store it in space for future generations. This technology can secure the last evidence of our civilisation: all we've learnt will not be forgotten," says Peter.

DESCRIBING NEW DINOSAUR SPECIES

Research led by palaeontologists at Southampton suggests that bones found on the Isle of Wight belong to three new species, two of which are spinosaurids, a group of predatory theropod dinosaurs closely related to the giant *Spinosaurus*.

Chris Barker, PhD student and lead author of the study, and the team named the new dinosaurs *Ceratosuchops* and *Riparovenator*. The only spinosaurid skeleton previously unearthed in the UK belonged to *Baryonyx*, which was initially discovered in 1983 in a quarry in Surrey.

Analysis of the bones carried out at the University suggested they belonged to species of dinosaurs previously unknown to science.

Chris Barker, PhD student and lead author of the study, said: "We found the skulls to differ not only from *Baryonyx*, but also one another, suggesting the UK housed a greater diversity of spinosaurids than previously thought."

Dr Neil Gostling, Lecturer in Evolution and Palaeobiology, who supervised the project, said: "This work has brought together universities, Dinosaur Isle museum and the public to reveal these amazing dinosaurs and the incredibly diverse ecology of the south coast of England 125 million years ago."

CONSERVING MARITIME HISTORY

Engineers at Southampton are working with the National Museum of the Royal Navy (NMRN) to help find the best materials to ensure Nelson's flagship, HMS Victory, is weatherproof and watertight for the next half century.

The University's nC2 Engineering Consultancy is running their specially designed series of tests to assess the long-term performance of a range of paints, caulking and glues (plank sealants) and metal fastenings.

The research forms part of a NMRN project to conserve the 18th Century warship for the next 50 years – replacing rotting planks from the hull, repairing the structural framework, and renewing the rigging.

"We want to know as much as possible about the materials we are using – taking an evidence-based approach to choose the right products," says Diana Davis, Head of Conservation at NMRN.

"nC2 is helping us to do that, and even if there's no perfect product that will last the full 50 years, their data will enable us to plan our maintenance schedule to keep the ship watertight."

MAKING NEW PRODUCTS WITH WASTE CO₂

University of Southampton spin-out company, ViridiCO₂, is revolutionising the sustainability of chemical manufacturing processes by making products from carbon dioxide (CO₂).

There is still a desperate need to reduce carbon emissions and increase action to address the climate emergency; this is one of the many global challenges that researchers at Southampton are tackling head on.

"Our new technology can directly replace petrochemicals – these are chemicals derived from fossil fuels used in the chemical manufacturing process – with repurposed CO₂. By using waste CO₂ in this way, it not only reduces emissions and fossil fuel reliance, but it also serves as a CO₂ utilisation strategy, rather than just a storage solution," explains Dr Daniel Stewart, co-founder of ViridiCO₂.

"Our catalyst takes CO₂ that would otherwise be released into the atmosphere and turns it into polymers," says Daniel. "These polymers can be used in furniture, cars, and clothing. This means consumers will be able to buy products which are made from waste CO₂, saving the planet while buying the products they need."

This technology was developed during Daniel's PhD, at the School of Chemistry, with co-founder of ViridiCO₂, Professor Robert Raja.

THE MEANING OF LIFE COULD WELL BE LUCK

A recent study gives a new perspective on why our planet has managed to stay habitable for billions of years – concluding it is almost certainly due, at least in part, to luck.

Geological data prove that Earth's climate has remained continuously habitable for more than three billion years. However, it has been precariously balanced, with the potential to rapidly deteriorate to deep-frozen or intolerably hot conditions, causing planet-wide sterility.

Now Professor Toby Tyrrell, a specialist in Earth System Science at Southampton, has used the University's Iridis supercomputing facility to run simulations looking at how 100,000 randomly different planets responded to random climate-altering events spread out across three billion years, until they reached a point where they lost their habitability.

The study results suggest that chance is a major factor in influencing whether planets, such as Earth, can continue to nurture life over billions of years.

“We can now understand that Earth stayed suitable for life for so long due, at least in part, to luck,” he says. “For instance, if a slightly larger asteroid had hit Earth, or had done so at a different time, then Earth may have lost its habitability altogether.”

KEEPING PATIENTS SAFE IN HOSPITAL

Southampton research has shaped the public debate around safe nurse staffing levels in hospitals, and informed clinical guidelines and legislation in the UK.

The Francis Inquiry (2013) into the care scandal at Mid Staffordshire NHS Trust found that some patients had gone without essential nursing care with fatal consequences. Nurse staffing levels were identified as a contributory factor, and the inquiry recommended that evidence-based national policy and guidance on safe staffing be developed.

Professor Peter Griffiths and Professor Jane Ball, Dr Jeremy Jones, and their team from Southampton found that low nurse staffing was linked to increase risk of death in hospital, with 86 per cent of nurses reporting they left some necessary care undone because of low staffing.

“We found that when nurses had to look after more than eight patients on hospital wards there was a substantial increase in the risk of harm. The National Institute for Health and Care Excellence (NICE) commissioned us to review the evidence and included our ratio of 1:8 as a warning level in their guideline: Safe Staffing for Nursing in Adult Inpatient Wards in Acute Hospitals,” says Peter.

SUSTAINABILITY AT ASTRONOMICAL LEVELS

A space research collaboration between the University and Astroscale UK Ltd has made considerable progress towards a safe and sustainable orbital environment.

The partnership investigated the effectiveness of active debris removal strategies using a space debris model developed by Professor Hugh Lewis at the University.

Astroscale has now launched the world's first commercial mission to test its End-of-Life Services by Astroscale demonstration (ELSA-d) technology, which aim to remove obsolete satellites from orbit.

Over the next decade, an increase in the number of large satellite constellations being launched into low-Earth orbit will add thousands of satellites into space, increasing the likelihood of collision and posing a risk to the sustainability of the orbital environment.

"In the results, we saw that there were several opportunities for debris removal to reduce the risks associated with large constellations. These are really encouraging findings that will hopefully contribute to efforts to achieve safe and sustainable use of the near-Earth orbital environment," says Hugh.

WASHING AWAY UNSUSTAINABLE PRACTICES IN HAIRDRESSING

The UK's £6.2bn hairdressing industry has a huge environmental impact, through its use of water, energy, and chemicals. Southampton research is reducing its carbon footprint and cutting costs.

Denise Baden, Professor of Sustainable Business worked with industry professionals on research and found that heating water is the most energy-intensive activity in a hair salon.

As a direct consequence of the research, the Hair and Beauty Industry Authority (HABIA) added sustainability practices to all technical units within its new National Occupational Standards. This meant that hairdressers across the UK's estimated 55,000 salons were advised to abandon the default shampooing practice of 'rinse and repeat', to shampooing only once.

Currently, Denise is working with the Green Salon Collective and 22 salons to identify how hairdressers can inspire their customers to save energy, water and use fewer chemicals at home.

"Hairdressers are in a unique position to combat climate change," says Denise. "As they chat to their clients while styling their hair, they have an ideal opportunity to highlight practical ways that individuals could adopt a more sustainable lifestyle."

The aim is to encourage the reduction of individual energy and water footprints through the promotion of research-based 'eco tips' stuck to mirrors to inspire conversation about sustainable haircare. This allows stylists to share research showing that too much hot water and chemicals isn't good for your hair condition, skin, planet or your bills.

ALUMNI AWARDS

Our alumni are individually, and collectively, making a difference and we are incredibly proud to support them in their endeavours.

In recognition of the incredible achievements of our talented alumni, we are delighted to announce the inaugural Outstanding Alumni Awards. These awards recognise excellence across a broad range of sectors, specialisms and career stages and clearly illustrate the exceptional, supportive and international community that you step into today.

LIFETIME ACHIEVEMENT AWARD

Dr S Chelvan

BSc Politics and Law, 1998

S Chelvan practices as an immigration and asylum barrister and has received national and international acclaim for his tireless work in defence of human rights. He is well known for his prominent and policy-oriented advocacy for minority and, particularly, LGBTQ+ rights.

He now practices from No 5 Chambers in London, as well as being an International Rights Officer with UK Black Pride Ltd, and a member of the board of trustees of Equal Ground: a Sri Lankan non-profit organisation seeking economic, social, cultural, civil and political rights for the Lesbian, Gay, Bisexual, Trans, Intersex, and Questioning (LGBTIQ) community of Sri Lanka.

S Chelvan became Legal Aid Barrister of the Year in 2014, won Attitude Magazine's Pride Award in 2018, and became a member of the UK Government Equalities Office LGBT advisory panel in 2019.

He was also one of the faces of the Movement Against Xenophobia's 'I Am An Immigrant' campaign and has returned to the University on numerous occasions to deliver talks about his career, inspiring many students with his deeply meaningful work.

RISING STAR AWARD

Dr Kizanne James-McCarthy

MSc Leadership and Management in Health and Social Care, 2018

Kizanne is a multi-award-winning leader, Chevening Scholar, women's rights and health activist and physician with a passion for global health. She has been promoting family planning since she was at medical school through activities including voluntary talks on sexual health at institutions, including prisons, and developing an app and website giving information about contraception.

In 2016 she was chosen to become a World Contraception Day Ambassador. Kizanne said: "Our work focuses on avenues to provide sexual health resources using digital media in developing countries. It all started with my role as World Contraception Day Ambassador for Latin America and the Caribbean, and now has led to the creation of our organisation called Access Sex Health. Our dream is to make sexual health services available to everyone."

She has volunteered with numerous third-sector organisations within the Caribbean and the UK, with a special focus on youth empowerment, women's development and health. Her commitment to youth leadership and work in the field of sexual health is a shining example of both professional achievement and public good.

From advocating for the vulnerable, delivering better healthcare outcomes, building strong networks for our graduates, and supporting enterprise and development at the University, our award winners are achieving remarkable things, and truly embody the University's mission to change the world for the better and to build a more inclusive world.

ALUMNI SERVICE AWARD

James (Jim) and Monica Hubner

BSc Economics, 1956 and BA German, 1955

Jim and Monica met as students at Southampton in the 1950s, and since graduating have stayed closely connected to the University. Jim often says that he feels as if he never really left.

Jim and his late wife Monica, who sadly passed away last year, were both active members of the University Council over many years. They both had a strong belief in the importance of the alumni community and its power to build meaningful relationships beyond graduation.

Monica worked closely with the embryonic Alumni Office and lobbied successive Vice-Chancellors to give more resource to support alumni relations and for it to become a truly professional organisation.

Jim has been a vocal proponent of the ways in which alumni can remain connected to the University and was an active member of the University's London alumni branch.

Jim has been a regular donor to the University since 1998 and started making larger special gifts in 2008. His ongoing generosity has supported various University funds, with student support and experience at the heart.

The Hubners have shown a true commitment to the University, demonstrated over a lifetime.

ALUMNI SERVICE AWARD

James Vernon

MEng Electronics and Computer Science, 1987

James has been a passionate supporter of a huge range of projects and priorities across the University, using his time, expertise and energy to help develop volunteering, mentoring, advocacy, enterprise and engagement in support of our students, research and infrastructure.

James has been heavily involved with the University's start-up incubator, Future Worlds, playing an active role in mentoring founders, advising and showcasing enterprise at Southampton through the 'Dragon's Den' event, and investing in several of the start-ups. James advocated for the scheme and actively encouraged other alumni and contacts to support ambitious progress within Southampton-based companies.

Together with his wife Mindy, James made a leadership donation to the Cancer Immunology Campaign to fund the clinical trials unit at the Centre, an important and central part of the facility, which continues to transform the landscape of cancer research and treatment.

James's ongoing engagement with the University reflects the true spirit of service and 'giving back' in all its forms and has made an immeasurable contribution to the continued success of the University.

YOUR ALUMNI COMMUNITY

You did it! We are so glad to have this opportunity to celebrate your graduation: after all the long hours of studying, the ups and downs of the last few years, it comes down to this.

As a graduate of the University of Southampton, you are now part of a global community of more than 265,000 alumni spanning 180 countries. This network of talented people has one thing in common, a shared connection that can help open doors, build relationships, and shape your future as you go out into the world.

Stay in touch with your alumni community

This is not the end of your journey with us, but the beginning of a life-long relationship. As a graduate, you can take advantage of a whole range of services:

- benefit from careers advice, library services and a University email address
- gain access to our e-mentoring platform, where skilled alumni can provide advice, guidance and networking opportunities, as you build your career
- connect with your community on our LinkedIn, Facebook and Twitter groups
- attend our events in person or online
- stay up-to-date with University news via Hartley News and Hartley News Online, our alumni magazine, and our regular e-newsletters (What's On)
- discounted Sport and Wellbeing membership

We know that many of you will be thinking about what comes next and staying connected to the University and your alumni community is one of the best ways to make sure you have everything you need to achieve remarkable things, land your dream job and keep developing your skills.

You can apply for internships, career mentoring and enterprise opportunities for up to one-year after you graduate and you can access one-to-one guidance appointments for five years after graduation.

To make sure you have full access to the benefits and support we can offer you, please update your contact details with us. Updating your contact details is quick and simple – just visit www.southampton.ac.uk/update

You can find more information about what it means to be a graduate of Southampton on our website, along with resources to help you take your next step. Alternatively, you can contact the Office of Development and Alumni Relations by emailing alumni@southampton.ac.uk

Congratulations again on your amazing achievement – we are so proud of you! We hope you have a memorable day, a great summer, and we look forward to staying in touch.

IMPORTANT INFORMATION

Every effort is made to ensure that this ceremonial programme is correct at the time of going to print. The details produced in this booklet are for ceremonial purposes and do not constitute an official record of present or past graduates from the University. The Examinations and Awards Office, within the Student and Education Services Division, maintains the official record of award holders at the University of Southampton.

This information can be made available, on request, in alternative formats.
