

Feedback Form- 1st Year Podiatry Students

Please Note:

The feedback given to the students at level 1 on placement is formative only and the following outcomes form only part of the student's evaluation. The learning outcomes (appendix 1- Handbook) demonstrate other learning outcomes that the students are required to gain on clinical placement, but are assessed elsewhere.

Please comment on the student's performance in the following areas where applicable:

Professional Skills

| Learning Outcome | Yes | If no - Any Feedback / Comments? |
|---|-----|----------------------------------|
| Was the student able to describe the role of health education and promotion in podiatry practice? | | |
| Was the student aware of the principles underlying health and safety at work and risk assessment? | | |

| | | |
|---|--|--|
| Was the student able to identify uncomplicated foot pathologies? | | |
| Did the student develop clinical reasoning skills in the process of assessment and diagnosis? | | |
| Did the student conduct and record patient assessments appropriately in accordance with the requirements of the Data Protection Act and Information Governance? | | |
| Did the student demonstrate effective communication skills? | | |
| Did the student begin to initiate appropriate management and care planning? | | |

Attitudes and Values

| Learning Outcome | Yes / No | Feedback / Comments |
|---|----------|---------------------|
| Did the student take responsibility for their own clinical learning? | | |
| Did the student show a concern for the interests, safety and dignity of patients and colleagues? | | |
| Did the student identify the cultural, religious and ethnic diversity of patients and colleagues? | | |

Any other comments:
