

Health & Pharma UIST
One Day Conference 21st June 2013

UNIVERSITY OF
Southampton

Bench to Clinic: Partnership with Health & Pharma

Bench to Clinic: Partnership with Health & Pharma

21st June 2013 - Garden Court, Highfield Campus, University of Southampton, SO17 1BJ

Poster Briefing

The UIST Health & Pharma conference is looking for about 40 posters with a strong translational theme. That is, the work described must contribute to the translation of bench work into medical or other societal benefits.

Posters boards will be 1 metre square, but can be used joined together to accommodate A0. These will be on display in Garden Court during the conference and will be visited during breaks and at lunchtime.

PRIZES!

The committee/organisers strongly encourage participation from students and early career researchers - and commitment to translation. Three prizes will be awarded:

- £250 for the best poster
- £100 for the second best
- A bottle of champagne for the runner-up

Posters will be judged by our panel of speakers, who are not all academics. Please ensure that you convey your messages clearly, without compromising scientific content. Once again the primary criterion for judgement is translation – what impact did your work have – or will it have? The prize will look good on your CV!

If you have any queries please contact Ellen Lancaster on enterprise.fm@soton.ac.uk

Thank you

Health Pharma UIST Team May 2013
