CAHP News

Centre for Applications of Health Psychology

NEW STAFF AND STUDENTS

A very warm welcome to our new colleagues, Alarcos Cieza, Rosie Essery and Emily Smith, our new PhD students, Marta Glowacka and Miznah Al-Abbadey, and the 2012-2013 MSc Health Psychology Class!

RECENT ACHIEVEMENTS

Grant funding awarded

- Alarcos Cieza is the coordinator of the EU funded project “MARATONE” Mental Health Training through Research Network in Europe. The negotiations with the European Commission are just being closed and the project will start in April 2013. The total funding of the project is ca. 3.7 million euros with £20,000 remaining in Psychology at Southampton.

Journal Publications

OTHER NEWS

- Jenny Mc Sharry was awarded a DHP student bursary to attend the DHP Conference in Liverpool in September, to give two presentations.

- Jenny also has a new job working as Research Fellow on the INDRA project (Internetbased Distress Reduction for primary care) based in Primary Care and Population Sciences.

- Gulcan Garp presented her PhD work at the DHP Conference in Liverpool and at the International Congress of Behavioural Medicine conference, Budapest, Hungary.

- Sarah Tonkin-Crine has presented her work at the DHP (Liverpool) and the European Health Psychology Society EHPS (Prague) conferences.

- Emily Arden-Close and Dan Schoth have been appointed as Teaching Fellows in Health Psychology.

- Fis Bishop was awarded Prize for Best Contribution at the Centro Stefano Franscini conference, Beyond Placebo: biomedical, clinical, and philosophical aspects of the placebo effect (Ascona, Switzerland, August 2012).

Congratulations everyone!

New Books

The Book “ICF Core Sets – A manual for clinical practice” of which Alarcos Cieza is editor has been released in English, German and Italian.

The purpose of CAHP is to promote the application of psychology to alleviate health problems in clinical populations. CAHP members develop, apply, test, refine and disseminate psychological theory and techniques in order to assist people with symptoms, disabilities or medical diagnoses.
