

Do you help to support a disabled child or adult?

Parents and Carers Network welcomes all staff who look after children under 16, or who care for adults unable to look after themselves due to age or disability:

Enham Trust is an Andover-based organisation **supporting disabled adults and young people and their families**. It provides a range of practical services including help with care at home, supported living, residential care, skills training and employment. The Trust can often also help with queries on Personal Health Budgets and Direct Payments.

P&CN are pleased to welcome Enham Trust to Southampton on:

Monday 8 June 2015 12:30-13:30

B85 (Life Sciences), room 2209

If you support a disabled child or adult in your family, or are likely to do so in the near future, please join us on this day. Meet other parents and carers, and have lunch on us as well.

This session is organised through the voluntary **Parents and Carers Network** with support from Diversity. To join P&CN or find out more, email diversity@soton.ac.uk
