

**Great
Science
Share**
for SCHOOLS

**A national campaign to engage
young people in sharing science
learning with new audiences.**

Satellite venue event, Tuesday 18th June 2019, 10am – 2.30pm

Led by Colin Stevens & Sam Weston, University of Southampton

Join us at the Mathematics and Science Learning Centre for a hands-on day sharing Science ideas and activities. Small groups of pupils will bring a practical science activity they have developed in school and will share this activity with the other pupils attending the event. With an opportunity to meet Scientists from the University of Southampton.

Further information about The Great Science Share at: www.greatscienceshare.org/#intro To see inspirational ideas from 2018 click on stories.

We will host a teacher's information session at the MSLC on Monday 1st April 16:00 – 17:00 to go through what it's all about and ideas on how you could launch this at your school. Let us know you are coming so we can order enough biscuits.

Children will be able to:

- Research and present their own science activity developed in their school to other pupils attending the event
- Share ideas to take and develop in their own classroom

Suitable for:

Primary pupils (groups of 6 to 8) accompanied by their teachers and teaching assistants.

This is a FREE event. Please bring a packed lunch.
