

HORIZONS

Launch Event

Monday 20 June, 12-2pm

Garden Court, Highfield Campus, University of Southampton

What is HORIZONS?

HORIZONS, a new flagship research programme from the Macmillan Survivorship Research Group (MSRG), is **exploring recovery from cancer treatment and self-management of the consequences of cancer**. It will deliver robust evidence and unprecedented insight into health outcomes and experiences of participants before they begin cancer treatment and over the following years.

Macmillan Cancer Support is making a major investment to support this vital research programme, which will provide robust data to help **transform the treatment, support and care delivered to people affected by cancer**.

Join us on 20 June

This is your chance to **learn** about HORIZONS, **network** with key stakeholders, **explore** opportunities for collaboration, and **celebrate** the success of the MSRG.

Confirmed participants include:

- Prof. Sir Christopher Snowden, Vice-Chancellor, University of Southampton
- Lynda Thomas, Chief Executive, Macmillan Cancer Support
- Prof. Mandy Fader, Dean of Health Sciences, University of Southampton
- Prof. Claire Foster, Director of MSRG, Chief Investigator of HORIZONS

Lunch and refreshments will be served.

How to register?

To register for the event click here <https://www.eventbrite.co.uk/e/macmillan-horizons-programme-launch-day-tickets-25233525153>
