

Wessex
IMMUNOLOGY GROUP

Spring Meeting 2016

UNIVERSITY OF
Southampton

Immunomodulation

Wednesday 8th June 2016 (09:00-17:00)

LT2, South Academic Block, Southampton General Hospital

Programme

- 9:00-9:25** Registration and coffee & pastries.
- 9:25-9:30** Welcome Address.
- 9:30-10:15** **Prof Andrew Sewell** (Cardiff University):
"To be announced (TBA)".
- 10:15-11:00** **Prof Mireia Pelegrin** (The Institute of Molecular Genetics of Montpellier, France):
"Antiviral monoclonal antibodies: can they be more than simple neutralizing agents?"
- 11:00-11:30** Coffee/tea and Posters.
- 11:30-12:15** **Prof Adam Cunningham** (University of Birmingham):
"Modulation of host immune function by Salmonella and its antigens"
- 12:15-12:35** **Selected talk 1 from abstracts:** "TBA"
- 12:35-12:55** **Selected talk 2 from abstracts:** "TBA"
- 12:55-13:55** Lunch and Posters.
- 14:00-14:45** **Prof David Wraith** (University of Birmingham)
"Switching off unwanted immune responses: The mechanism of antigen-specific immunotherapy with T cell epitopes".
- 14:45-15:15** **Dr Nicky Cooper** (Peptinnovate):
"TBA"
- 15:00-15:20** **Selected talk 3 from abstracts:** "TBA"
- 15:20-15:50** Coffee/tea and Posters.
- 15:50-16:10** **Selected talk 4 from abstracts:** "TBA"
- 16:10-16:55** **Dr Stephen Beers** (University of Southampton):
"Isotype and Fc gamma Receptor Interactions Determine the Mechanism of Action of Immunomodulatory mAbs"
- 16:55-17:00** Closing remarks and poster prize.
- 17:00-** Wine and cheese reception.

Meeting made possible by the generous sponsorship of:

Inspired by patients.
Driven by science.
