

The Southampton Cancer Research UK Centre MMedSc Bursary

The Southampton Cancer Research UK Centre will award a bursary of £3,000.

The bursary is intended to encourage high achieving students to undertake a research project in cancer research as part of their MMedSc degree. The project must be led by a principal investigator from the Southampton Cancer Research UK Centre (based at Southampton General Hospital) and applicants must discuss projects with potential supervisors prior to applying.

For details of cancer research in the CR-UK Centre, please see;

- www.southampton.ac.uk/medicine/academic_units/academic_units/cancer_sciences.page
- www.cruk.org/southampton

Application deadline: 15th April

1 award available

Applicants must supply:

- Outline of the project, including name of proposed supervisor (max 1 page)
- Personnel statement including why the student is interested in cancer research and what the student hopes to achieve from the project.
- Student's CV

Please direct any queries to Professor Graham Packham:
