

Inspiring practical primary science. An evening at Winchester Cathedral

The Cathedral Learning Centre, 10A The Close, Tue 31st Jan 2017, 4pm - 7pm

Evening led by Colin Stevens and Sam Weston from the Mathematics & Science Learning Centre and Emma Hart, Learning Officer, Winchester Cathedral.

Join us for an evening of hands-on practical science activities to take back to school and use with your pupils.

Suitable for Primary teachers, trainee teachers and teaching assistants. You will walk away with resources ready to use in your classroom.

science

Try out practical science activities which explore curriculum ideas in key stage 1 and 2 on:

- Light
- Materials
- Forces
- Sound

- Teaching resources to take away on a memory stick
- Includes **pizza** and refreshments
- Try out practical activities and evaluate them prior to use in your classroom
- Explore ideas you can use whilst visiting the cathedral with your pupils

Evening workshop only £30

Includes refreshments, pizza and entry to the annual cathedral open evening after the course.
