

MTPC 2015

UNIVERSITY OF
Southampton

6th Marine Technology Postgraduate Conference

1st-2nd July 2015

The Fluid Structures Interaction group at the University of Southampton is pleased to invite you to the 6th UK Marine Technology Postgraduate Conference (MTPC) 2015.

The 6th MTPC is held in Southampton for the second time and we are happy to announce that this year will take place in the new Boldrewood campus, home of the Faculty of Engineering and the Environment.

The conference is an opportunity for postgraduate researchers to present their work, learn about research projects at other universities and network amongst other researchers, building new contacts for the future. The event is also an ideal opportunity for professionals from the industry to learn more about the cutting edge research currently taking place within UK marine technology institutions.

Typical themes include:

- Ship Design
- Marine Structures
- Hydro-Aerodynamics
- Marine Engineering
- Offshore Engineering
- Small Craft and Yacht Design
- Ship Propulsion
- Renewable Energies

Abstract submission deadline: Wednesday 20th May 2015

Delegates registration deadline: Wednesday 10th June 2015
