

## **Notes re Health MOT 07/11/2016**

This HNA was developed for the needs of men on prostate cancer follow up, and may not be suitable for men receiving treatment.

The name "Health MOT" was chosen, as many men had given feedback that they did not like the term "Holistic". However there have been examples of men interpreting the request "Complete a Health MOT" with a request to attend their GP or pharmacy for an NHS Health Check. As such, we are currently looking to change the term "Health MOT".
