"The job market for my course is extremely competitive, so I believed it was crucial for me to get some extra experience under my belt. I have learned valuable skills which will definitely give me a boost with future employers. I haven’t just logged time either; I have my own responsibilities and tasks that have helped develop my knowledge and understanding of the industry and also knowledge for my course."

"My placement year was everything I had expected and more! Over my 11 months I was involved in 10 projects, took the lead in 6 of them and was asked to make zero cups of tea. I would recommend a Year in Employment Placement to anyone. I have gained so much experience in dealing with professionals and working in an international business and now feel more confident in daily life and in solving any problem that may come my way. Most crucially for me, I received an offer for a place on the British Airways Future Leaders Graduate Scheme."
