Programme Overview

Brief outline of the programme

This BA programme will enable you to pursue your interests in Ancient History and Philosophy in depth. You will have the opportunity to study and research to a high level, equipping yourself with specialist knowledge in your chosen areas of study. Studying Ancient History and Philosophy at Southampton offers you the opportunity to learn in an engaging, supportive and highly successful research environment. Southampton’s Faculty of Humanities contains leading experts in a wide range of fields related to the ancient world and its reception (History, Archaeology, ancient and modern languages and literatures, philosophy and film). From ancient Egypt to Minoan civilisation, from the conquests of Alexander the Great to the Roman empire, from Roman Britain to the ancient Americas and the Middle East, from ancient philosophy and the biblical world to the rise of Islam, studying Ancient History at Southampton affords you the chance to study topics about which you are already passionate, or to try something entirely new. Whatever you choose, Ancient History and Philosophy at Southampton will enable
you to gain invaluable skills and study topics about which both you and staff are passionate. The study of ancient languages is optional, but you are strongly encouraged to make the most of the opportunities on offer at Southampton to study Latin and Ancient Greek.

Your contact hours will vary depending on your module/option choices. Full information about contact hours is provided in individual module profiles.

Learning and teaching

Students at Southampton learn in a variety of ways. Lectures introduce students to the outline of a topic and the debates within it. Small-group seminars offer students the chance to interact with academics and other students in collaborative discussions. Such discussions can help inform and shape the ways in which students then go about writing their essays. Feedback on performance is given through formal and informal one-to-one discussions and through oral and written feedback after submission of a piece of work. Students also get the opportunity to work together collaboratively and to undertake substantial pieces of individual research, most notably with the part Three dissertation in Ancient History or Philosophy.

Assessment

The multidisciplinary team offering Ancient History and Philosophy uses a range of assessment methods to ensure that students are able to demonstrate they have achieved intended learning outcomes. The most common means of assessment is an essay. Essays offer students the opportunity to demonstrate their use of skills in research and analysis to make their own arguments. Longer pieces of writing, allowing for a greater development of argument, become more common as an undergraduate progresses through his or her studies, and these allow students to formulate their own lines of historical and philosophical enquiry. Because source analysis (textual and material) is so fundamental to the understanding of the ancient world, we put a strong emphasis on developing skills in analysing primary sources through a variety of commentary exercises and take-away gobbet examinations (e.g. in Part One compulsory modules). Although they account for less than 50% of the overall degree mark, exams are also taken, in order to assess students’ ability to formulate clear, focused and engaging pieces of writing in test conditions. Individual and group oral presentations feature in some modules, including the compulsory Part One Introduction to the Ancient World module, and compulsory Part Two Appearance and Reality module. Language modules will focus primarily on assessing skills in reading ancient sources and applying those skills to source analysis.

Special Features of the programme

Students on the Year Abroad programme will spend Part Three of their programme at one of the Faculty's partner universities and will continue with Part Four of the curriculum upon return to Southampton in their fourth year. Students who choose to spend a semester abroad will do so in their second year and will continue their Part Two curriculum at the partner university, Part Three of the programme will be completed at Southampton.

Students can choose to study in Europe or beyond. A comprehensive list of department, Faculty and university-wide exchange partners can be found here: https://www.southampton.ac.uk/uni-life/exchanges/exchange-partners.page

The interdisciplinary nature of Ancient History means that a range of further special features are available to you. Depending on the optional modules you choose, you can gain experience of archaeological fieldwork, fieldtrips and take part in study tours.

Please note: As a research-led University, we undertake a continuous review of our programmes to ensure quality enhancement and to manage our resources. As a result, this programme may be revised during a student's period of registration; however, any revision will be balanced against the requirement that the student should receive the educational service expected. Please read our Disclaimer to see why, when and how changes may be made to a student's programme.

Programmes and major changes to programmes are approved through the University's programme validation process which is described in the University's Quality handbook.
