Programme Specification

Accounting and Finance with Employment Placement (2020-21)

This specification provides a concise summary of the main features of the programme and the learning outcomes that a typical student might reasonably be expected to achieve and demonstrate if s/he takes full advantage of the learning opportunities that are provided.

Awarding Institution: University of Southampton
Teaching Institution: University of Southampton
Mode of Study: Full-time
Duration in years: 4
Accreditation details:
- Association of Chartered Certified Accountants (ACCA)
- Association of International Accountants (AIA)
- Association to Advance Collegiate Schools of Business (AACSB)
- Chartered Institute of Management Accountants (CIMA)
- Institute of Chartered Accountants in England and Wales (ICAEW)

Final award: Bachelor of Science with Honours (BSc (Hons))
Name of Award: Accounting and Finance with Employment Placement
Interim Exit awards:
- Certificate of Higher Education (CertHE)
- Diploma of Higher Education (DipHE)

FHEQ level of final award: Level 6
UCAS code: N401
Programme Code: 5392
QAA Subject Benchmark or other external reference: Accounting 2016, Finance 2016
Programme Lead: Fatimah Zainudin

Programme Overview

Brief outline of the programme

This Accounting and Finance BSc degree will provide you with a thorough working knowledge of accounting and finance theory and methods in the context of social science. You will learn how to prepare and interpret financial and managerial information for a variety of users, as well as gaining an understanding of the theory and practice of investment and finance. The added placement year in an approved industrial setting, giving you a chance to understand how the theoretical side of the qualification is applied in a real business setting.

The programme is accredited by the Association to Advance Collegiate Schools of Business (AACSB), which is an internationally recognised award of excellence in business education.

Your contact hours will vary depending on your module/option choices. Full information about contact hours is provided in individual module profiles.

Learning and teaching

Our aim on the BSc Accounting and Finance degree is to provide you with the knowledge, understanding and skills relevant to the main subjects you are studying, together with a capacity for critical and evaluative thinking. To achieve this we aim to offer a stimulating, challenging, but supportive learning environment for our students,
and to encourage autonomous learning. On successful completion of your degree, you should be able to demonstrate that these aims have been fulfilled and that you are also proficient in relevant key skills, including problem-solving, communication and teamwork.

Assessment
Your understanding of the subjects covered and your ability to use the knowledge and skills gained will be enhanced through a variety of methods and strategies. Some of the key learning approaches that you will experience as a student in the School will include group work, case studies and learning alongside other students.

Special Features of the programme
Students will be able to choose various optional modules from across other programmes within the school. Upon completion of this degree, students will gain exemptions from professional bodies such as ICAEW, ACCA, CIMA and AIA.

MANG2063 Placement module
This compulsory year will be spent on an approved industrial placement in a business organisation. Students must pass this year according to the University's requirements. You will be provided with an Industrial Placement Handbook, which will detail the full regulations regarding the placement.

Please note: As a research-led University, we undertake a continuous review of our programmes to ensure quality enhancement and to manage our resources. As a result, this programme may be revised during a student's period of registration; however, any revision will be balanced against the requirement that the student should receive the educational service expected. Please read our Disclaimer to see why, when and how changes may be made to a student's programme.

Programmes and major changes to programmes are approved through the University's programme validation process which is described in the University's Quality handbook.

Educational Aims of the Programme

This degree operates within the overall modular structure that is a feature of all the Southampton Business School undergraduate degrees. The aims of the programme are to:

1. Provide you with a good understanding of the central concepts of the disciplines of accounting and finance.
2. Give you the essential foundations in management, law, economics, mathematics and statistics relevant to accounting and finance.
3. Allow you to develop a high degree of numeracy and a capacity for reasoned thought and analysis.
4. Promote your capacity for critical and evaluative thinking within a stimulating and supportive environment.
5. Offer you the opportunity to pursue areas of personal interest via the range of optional subjects available.
6. Provide practical training and context in applying the tools and techniques of accounting, finance and business.
7. Equip you to undertake a career in accountancy, finance or wider business and successfully study for a professional accountancy or other qualification.

Generally develop your capacity for independent inquiry, your written and oral communication skills, your use of IT, your ability to handle both quantitative and qualitative information, and your ability to work co-operatively with your peers.

Graduate Attributes

Graduate Attributes are the personal qualities, skills and understanding you can develop during your studies. They include but extend beyond your knowledge of an academic discipline and its technical proficiencies. Graduate Attributes are important because they equip you for the challenge of contributing to your chosen profession and may enable you to take a leading role in shaping the society in which you live.
We offer you the opportunity to develop these attributes through your successful engagement with the learning and teaching of your programme and your active participation in University life. The skills, knowledge and personal qualities that underpin the Graduate Attributes are supported by your discipline. As such, each attribute is enriched, made distinct and expressed through the variety of learning experiences you will experience. Your development of Graduate Attributes presumes basic competencies on entry to the University.

Programme Learning Outcomes

Knowledge and Understanding

On successful completion of this programme you will have knowledge and understanding of:

A2. The generation of accounting information relevant to internal and external users.
A3. The contexts in which financial and managerial information is gathered and used, and why this information is valuable in these contexts.
A5. The theory and practice of investment and finance.
A6. A range of theoretical and methodological perspectives adopted within accounting and finance research.

Teaching and Learning Methods

A wide variety of teaching and learning methods is used, as considered appropriate to the specific outcomes of each module. By way of example, however, such methods include conventional lectures, student-led seminars and presentations (both individual and group), a final-year dissertation, computer laboratory work and independent study. Increasing independence of learning is required as the course progresses.

Assessment Methods

Assessment methods are diverse, and vary substantially between the different modules that comprise the programme. Whilst unseen examinations figure prominently, various forms of assessment are also utilised such as class tests, group presentations and other seminar contributions (some of these being peer reviewed), essays and computer-based work. The final year includes a double-weighted dissertation. Via the assessment methods utilised, the expectation is that you will increasingly be able to demonstrate your ability for independent thought and inquiry as you progress through the programme.

Subject Specific Intellectual and Research Skills

On successful completion of this programme you will be able to:

B1. Produce reasoned arguments and reach logical conclusions, and support both by reference to relevant theoretical frameworks and supporting evidence, including the appropriate literature.
B2. Use a variety of sources to provide the data necessary to conduct enquiries relating to specific issues of interest within the domains of accounting and finance.
B3. Record and summarise transactions and other economic events, prepare financial statements, and analyse the operations of business.
B4. Demonstrate how new concepts are applicable in an international business environment.
B5. Demonstrate practices that are ethical, responsible and sustainable.
Teaching and Learning Methods

You will learn about accounting and finance through a mixture of lectures, individual and group practical exercises, workshops, case studies and reading. Several modules include input from the profession in terms of guest lectures or prizes. There is an increasing emphasis on independent self-directed learning as the programme progresses, and reinforcement of the idea that accounting is not exclusively concerned with computation.

Assessment Methods

These vary as considered appropriate to the modules being assessed, and there is no ‘standard’ model. Assessment ranges from 100% unseen examination in some cases to 100% coursework in others. But a high proportion of assessment by examination should be expected as regards the accounting modules, since this is a requirement of the professional accounting bodies that award exemptions.

Transferable and Generic Skills

On successful completion of this programme you will be able to:

C1. Manipulate quantitative data using a range of mathematical and statistical methods;
C2. Interpret and analyse qualitative and quantitative information;
C3. Communicate ideas and arguments in a variety of written formats;
C4. Communicate ideas and arguments orally and through formal presentations
C5. Solve problems, sometimes in quite complicated situations, in both theoretical and practical terms;
C6. Work effectively in groups and teams;
C7. Manage your time effectively;
C8. Use computing and IT resources effectively;
C9. Use library and other resources, including the application of bibliographical skills.

Teaching and Learning Methods

The skills identified in this section are practised/developed, taught or assessed in both the core and optional modules that comprise the programme in different ways. They may also be taught and assessed during the placement year. However, a crucial feature is that many such skills, whilst practised and assessed, are not always actually taught (the giving of group presentations, as one example) and come from the less formal (self-) learning process that runs alongside the formal one. Equally, some of that which comprises the teaching process (such as what typically goes on in seminars) is not always assessed in any direct manner.

Assessment Methods

Assessment methods are diverse, and vary substantially between the different modules that comprise the programme. Whilst unseen examinations figure prominently, various forms of assessment are also utilised such as class tests, group presentations and other seminar contributions (some of these being peer reviewed), essays and computer-based work.
### Programme Structure

The programme structure table is below:

Information about pre and co-requisites is included in individual module profiles.

Where optional modules have been specified, the following is an indicative list of available optional modules, which are subject to change each academic year. Please note in some instances modules have limited spaces available.

### Pathway

**Part 1 (Year 1)**

**Typical course content**

This is a four year programme. It is of modular structure, consistent with other undergraduate degrees within the Business School. You will spend three years at the University of Southampton, and in each of these years will study eight modules divided equally between the semesters. Core modules run throughout the programme, but with an increasing ability as you progress to select optional modules of your choice from an approved list, culminating in the final year of the programme when you will submit a double-weighted project that gives you scope for investigating, in depth, an accounting, tax, finance or management topic (broadly defined) of personal interest.

You will undertake a placement between Year 2 (Level 5) and Year 4 (Level 6). This placement may be in any area related to accountancy, finance or management, but it is anticipated that the majority of placements will be in the roles of auditing, financial reporting, management accounting or finance.

During your first and second year you will attend seminars to help you obtain and prepare for your placement and make the most of the experience. This will include:

- Career Destinations sessions on CV writing, application skills etc.
- Mock interviews.
- Southampton Business School employability events where you can talk to employers informally.
- Presentations by the professional bodies on the qualification, practical experience requirements etc.
- Pre-placement briefings to cover issues such as Health and Safety, employment legislation etc.
- An opportunity to meet with students who have completed a placement (note for the first cohort you will be able to meet students who have completed a summer internship rather than a full year placement).

You are jointly responsible, with the Business School, for obtaining an appropriate placement, and all placements must be approved by the Business School. The Students Placement Liaison Adviser will be working with the student recruitment and marketing experts of the professional accountancy bodies, together with their district societies and employers to identify suitable placements. You will be able to apply to participating employers according to your career preferences and any minimum academic requirements of the employer. Many employers require an average of at least 60% and your first year results will normally be used for this purpose. However, if your full second year results are available then these will be used. Employers will also look for other skills such as time management, commercial awareness, group working skills etc. The specific skills demanded will depend on the role and the employer. They will be assessed by the employer using methods such as online tests, inbox exercises and interviews etc. The University cannot guarantee a placement as the provision is under the control of employers. However, the University will attempt to obtain placements for all students on the programme. If you are unable to secure an appropriate placement then you will be transferred to the three year BSc Accounting and Finance, subject to the normal progression rules.

During the placement you will be visited by a either the Student Placements Liaison Advisor or an academic to ensure the placement provides genuine learning opportunities, and to provide advice and support to both you and your employer in placement related issues. You will also be required to attend the University on specified days during your placement. At the conclusion of the placement you will attend a seminar to help you reflect and build on the skills you have gained.
You will be assessed on your placement by reflective logs and employer reports which must be submitted in May. You must pass the placement year in order to progress to year four, but it will not contribute to your degree classification. You will be provided with an Industrial Placement Handbook, which will detail the full regulations regarding the placement and the assessment of it.

Information about pre and co-requisites is included in individual module profiles.

Part 1 (Year 1) Compulsory (must take) Semester 2

Progression Requirements
The programme follows the University's regulations for Progression, Determination and Classification of Results: Undergraduate and Integrated Masters Programmes or Progression, Determination and Classification of Results: Postgraduate Master's Programmes. Any exemptions or variations to the University regulations, approved by AQSC are located in section VI of the University Calendar.

Support for student learning
There are facilities and services to support your learning some of which are accessible to students across the University and some of which will be geared more particularly to students in your particular Faculty or discipline area.

The University provides:
- library resources, including e-books, on-line journals and databases, which are comprehensive and up-to-date; together with assistance from Library staff to enable you to make the best use of these resources
- high speed access to online electronic learning resources on the Internet from dedicated PC Workstations onsite and from your own devices; laptops, smartphones and tablet PCs via the Eduroam wireless network. There is a wide range of application software available from the Student Public Workstations.
- computer accounts which will connect you to a number of learning technologies for example, the Blackboard virtual learning environment (which facilitates online learning and access to specific learning resources)
- standard ICT tools such as Email, secure filestore and calendars.
- access to key information through the MySouthampton Student Mobile Portal which delivers timetables, Module information, Locations, Tutor details, Library account, bus timetables etc. while you are on the move.
- IT support through a comprehensive website, telephone and online ticketed support and a dedicated helpdesk in the Hartley Library.
- Enabling Services offering support services and resources via a triage model to access crisis management, mental health support and counselling. Support includes daily Drop In at Highfield campus at 13.00 – 15.00 (Monday, Wednesday and Friday out of term-time) or via on-line chat on weekdays from 14.00 – 16.00. Arrangements can also be made for meetings via Skype.
- assessment and support (including specialist IT support) facilities if you have a disability, long term health problem or Specific Learning Difficulty (e.g. dyslexia)
- the Student Services Centre (SSC) to assist you with a range of general enquiries including financial matters, accommodation, exams, graduation, student visas, ID cards
• Career and Employability services, advising on job search, applications, interviews, paid work, volunteering and internship opportunities and getting the most out of your extra-curricular activities alongside your degree programme when writing your CV.
• Other support that includes health services (GPs), chaplaincy (for all faiths) and ‘out of hours’ support for students in Halls and in the local community (18.00-08.00).
• A Centre for Language Study, providing assistance in the development of English language and study skills for non-native speakers.

The Students' Union provides
• an academic student representation system, consisting of Course Representatives, Academic Presidents, Faculty Officers and the Vice-President Education; SUSU provides training and support for all these representatives, whose role is to represent students' views to the University.
• opportunities for extracurricular activities and volunteering
• an Advice Centre offering free and confidential advice including support if you need to make an academic appeal
• Support for student peer-to-peer groups, such as Nightline.

Associated with your programme you will be able to access:
• A dedicated study skills development induction programme for new entrants in their very first week, including a library tour.
• A personal tutor system.
• Programme handbooks.
• An undergraduate office, as a source of general information
• A dedicated Teaching and Learning Co-ordinator to aid with study skills issues.
• Module support material (increasingly in electronic form).
• E-mail communication between students and staff.
• Staff-student liaison group

Methods for evaluating the quality of teaching and learning

You will have the opportunity to have your say on the quality of the programme in the following ways:

• Completing student evaluation questionnaires for each module of the programme.
• Acting as a student representative on various committees, e.g. Staff/Student Liaison Committees, School Programmes Committee OR providing comments to your student representative to feedback on your behalf.
• Serving as a student representative on Faculty Scrutiny Groups for programme validation.
• Taking part in programme validation meetings by joining a panel of students to meet with the Faculty Scrutiny Group.

Further details on the University's quality assurance processes are given in the Quality handbook.

Career Opportunities

The anticipated destination of students in this programme is management roles in a wide range of private, public and third sector organisations (including social enterprises), particularly the most innovative students. A small number may form their own businesses on graduation, or within a few years of graduating.

The intent of the BSc Accounting and Finance programme is not to encourage too-early business formation, but to develop wider enterprising competencies that will enable employability in a range of organisations. Understanding better quality venture creation should be the result for students who choose this path.

Southampton has an enviable record for producing high-calibre graduates who move quickly into good careers soon after finishing their studies. The latest survey of Management graduates showed that 89% were employed or undertaking further study six months after graduating.

Employers value the quality of our programmes and recognise the skills of our graduates. Many of our graduates go on to professional training and graduate management schemes while others begin careers in management, accounting, finance or banking.

External Examiner(s) for the programme
Students must not contact External Examiner(s) directly, and external examiners have been advised to refer any such communications back to the University. Students should raise any general queries about the assessment and examination process for the programme with their Course Representative, for consideration through Staff: Student Liaison Committee in the first instance, and Student representatives on Staff: Student Liaison Committees will have the opportunity to consider external examiners’ reports as part of the University’s quality assurance process.

External examiners do not have a direct role in determining results for individual students, and students wishing to discuss their own performance in assessment should contact their Personal Academic Tutor in the first instance.

Please note: This specification provides a concise summary of the main features of the programme and the learning outcomes that a typical student might reasonably be expected to achieve and demonstrate if they take full advantage of the learning opportunities that are provided. More detailed information can be found in the programme handbook.
Appendix 1:

Students are responsible for meeting the cost of essential textbooks, and of producing such essays, assignments, laboratory reports and dissertations as are required to fulfil the academic requirements for each programme of study. In addition to this, students registered for this programme also have to pay for:

### Additional Costs

<table>
<thead>
<tr>
<th>Type</th>
<th>Details</th>
</tr>
</thead>
<tbody>
<tr>
<td>Approved Calculators</td>
<td>Candidates may use calculators in the examination room only as specified by the University and as permitted by the rubric of individual examination papers. The University approved models are Casio FX-570 and Casio FX-85GT Plus. These may be purchased from any source and no longer need to carry the University logo.</td>
</tr>
<tr>
<td>Insurance</td>
<td>If you choose to take a placement outside of the UK, you will need to pay for adequate insurance to cover both your travel and your work on placement.</td>
</tr>
<tr>
<td>Medical Insurance</td>
<td>If you choose to take a placement outside of the UK, you will need to pay for adequate medical insurance cover.</td>
</tr>
<tr>
<td>Obtaining Disclosure and Barring Certificates or Clearance Subsistence costs</td>
<td>For certain placements, your employer may request you undergo a Disclosure and Barring service check. Your employer may or may not pay for this.</td>
</tr>
<tr>
<td>Paying for immunisation and vaccination costs before being allowed to attend placements</td>
<td>If you choose to take a placement outside of the UK you may need to pay for immunisations and vaccinations.</td>
</tr>
<tr>
<td>Printing and Photocopying Costs</td>
<td>In most cases, written coursework such as essays; projects; dissertations are submitted online and by hard copy. The costs of printing a hard copy for submission of such coursework will be the responsibility of the student. The cost of photocopying will also be the responsibility of the student.[\text{<a href="https://www.southampton.ac.uk/isolutions/students/printing%7D%5C">https://www.southampton.ac.uk/isolutions/students/printing}\</a>]</td>
</tr>
<tr>
<td>Stationery</td>
<td>Students will be expected to provide your own day-to-day stationary items, e.g. pens, pencils, notebooks, etc. Any specialist stationery items will be specified under the Additional Costs tab of the relevant module profile.</td>
</tr>
<tr>
<td>Textbooks</td>
<td>Where a module specifies core texts these should generally be available on the reserve list in the library. However due to demand, students may prefer to buy their own copies. These can be purchased from any source. Some modules suggest reading texts as optional background reading. The library may hold copies of such texts, or alternatively you may wish to purchase your own copies. Although not essential reading, you may benefit from the additional reading materials for the module.</td>
</tr>
<tr>
<td>Travel Costs for placements</td>
<td>Student will be expected to cover travel and accommodation costs (including the costs of travelling to interviews, which some employers may reimburse)</td>
</tr>
</tbody>
</table>

In some cases you’ll be able to choose modules (which may have different costs associated with that module) which will change the overall cost of a programme to you. Details of such costs will be listed in the Module Profile. Please also ensure you read the section on additional costs in the University's Fees, Charges and Expenses Regulations in the University Calendar available at [www.calendar.soton.ac.uk](http://www.calendar.soton.ac.uk).
