

# Addendum to the Programme Specification

BA Archaeology and History (YA) 5221 Ad 202021

This Addendum has been produced to highlight the key changes made to the existing Programme Specification as a result of the University's response to the Covid-19 Pandemic. You should read it in conjunction with the relevant Programme Specification from the year you started your programme.

## University level information

---

In view of COVID-19, the University has had to make changes to some elements of programme delivery for 2020-21. These changes have included the method of delivery, such as face-to-face and online, and the number of modules available.

The University aims to provide as much of a face-to-face component to your education as prevailing conditions at the time allow, combined with its new blended approach that will develop active independent and group online learning.

As the COVID-19 pandemic develops, the University's response to this and other issues may likewise need to evolve. The University will consult with student representatives as necessary and appropriate and will communicate changes to you as soon as practicable so that you have the information you need to understand how a change may impact you and what steps you need to take next. The University remains committed to supporting you as you learn.

## Programme Information

---

In light of COVID-19, teaching and learning methods may be adapted. Lectures, seminars, practicals, tutorials, and consultation with academic staff may be delivered online or in person as the prevailing conditions allow. Fieldwork and fieldtrips may require alteration, if delivery is possible, as may access to laboratory facilities. Group sizes for practicals, tutorials and seminars may be adjusted. Assessment methods may also be adapted. For example, exams may be replaced by coursework or take-home assignments, and individual/group presentations and projects may take place online or be adapted to allow for social distancing guidelines.

## Programme Structure
