University level information

In view of COVID-19, the University has had to make changes to some elements of programme delivery for 2020-21. These changes have included the method of delivery, such as face-to-face and online, and the number of modules available.

The University aims to provide as much of a face-to-face component to your education as prevailing conditions at the time allow, combined with its new blended approach that will develop active independent and group online learning.

As the COVID-19 pandemic develops, the University's response to this and other issues may likewise need to evolve. The University will consult with student representatives as necessary and appropriate and will communicate changes to you as soon as practicable so that you have the information you need to understand how a change may impact you and what steps you need to take next. The University remains committed to supporting you as you learn.

Programme Information

In light of Covid-19, there will be some changes in the distribution of and the range of teaching and learning activities, including the types of summative assessments.

The placement element of this programme is a compulsory feature and you will be supported in finding appropriate placements, although we are aware that the current national and international situation may impact on placement opportunities throughout the 2020-21 academic year and beyond. However if you are not able to secure a placement opportunity during 2020/21, you will have the opportunity to transfer to the 3 year BSc degree programme 6047 BSc Business Management.
