

Addendum to the Programme Specification

7257 LLB Bachelor of Laws with Psychology

This Addendum has been produced to highlight the key changes made to the existing Programme Specification as a result of the University's response to the Covid-19 Pandemic. You should read it in conjunction with the relevant Programme Specification from the year you started your programme.

University level information

In view of COVID-19, the University has had to make changes to some elements of programme delivery for 2020-21. These changes have included the method of delivery, such as face-to-face and online, and the number of modules available.

The University aims to provide as much of a face-to-face component to your education as prevailing conditions at the time allow, combined with its new blended approach that will develop active independent and group online learning.

As the COVID-19 pandemic develops, the University's response to this and other issues may likewise need to evolve. The University will consult with student representatives as necessary and appropriate and will communicate changes to you as soon as practicable so that you have the information you need to understand how a change may impact you and what steps you need to take next. The University remains committed to supporting you as you learn.

Programme Information

A supporting element of the Programme is the employability skills programme, the careers programme and the annual law fair. The School intends to run these in an appropriately revised format in 2020/21.

Law students can typically get involved in an array of legal related extra-curricular activities, run either by the Law School, or the student bodies within the Law School, such as mooting, Legal Clinics, Street Law and Pro Bono work. Best efforts will be made to run as much of this activity as possible in 2020/21, in revised formats where necessary.

Programme Structure

Where optional modules have been specified, the following is an indicative list of available optional modules, which are subject to change each academic year. Please note that, in some instances, modules have limited spaces available.

Part 1

In addition to the core modules you must choose 15 ECTS/30 CATS of option modules in Semester 2. Once chosen the PSYC module will become CORE
