University level information

In view of COVID-19, the University has had to make changes to some elements of programme delivery for 2020-21. These changes have included the method of delivery, such as face-to-face and online, and the number of modules available.

The University aims to provide as much of a face-to-face component to your education as prevailing conditions at the time allow, combined with its new blended approach that will develop active independent and group online learning.

As the COVID-19 pandemic develops, the University's response to this and other issues may likewise need to evolve. The University will consult with student representatives as necessary and appropriate and will communicate changes to you as soon as practicable so that you have the information you need to understand how a change may impact you and what steps you need to take next. The University remains committed to supporting you as you learn.

Programme Information

In light of Covid-19, teaching and learning methods may be adapted. Lectures, seminars, tutorials, language classes including orals and consultation with academic staff may be delivered online or in person as the prevailing conditions allow. Group sizes for tutorials and seminars and language classes including orals may be adjusted to, for example, blended learning. Assessment methods may also be adapted. For example, exams may be replaced by coursework or take-home assignments and individual and group presentations and projects, including oral tasks for your language modules, may take place online or be adapted to allow for social distancing guidelines. In addition, if you are a year 2 or year 4 (final year) student, one of your compulsory modules in year 2 and one of your compulsory modules in year 4 has been replaced for a different module, which fulfils the same learning outcomes.

Programme Structure

Where optional modules have been specified, the following is an indicative list of available optional modules, which are subject to change each academic year. Please note that, in some instances, modules have limited spaces available.
