

Addendum to the Programme Specification

4413 MPhys Physics

This Addendum has been produced to highlight the key changes made to the existing Programme Specification as a result of the University's response to the Covid-19 Pandemic. You should read it in conjunction with the relevant Programme Specification from the year you started your programme.

[Programme Specification for entry in 2020-21](#)

[Programme Specification for entry in 2019-20](#)

[Programme Specification for entry in 2018-19](#)

University level information

In view of COVID-19, the University has had to make changes to some elements of programme delivery for 2020-21. These changes have included the method of delivery, such as face-to-face and online, and the number of modules available.

The University aims to provide as much of a face-to-face component to your education as prevailing conditions at the time allow, combined with its new blended approach that will develop active independent and group online learning.

As the COVID-19 pandemic develops, the University's response to this and other issues may likewise need to evolve. The University will consult with student representatives as necessary and appropriate and will communicate changes to you as soon as practicable so that you have the information you need to understand how a change may impact you and what steps you need to take next. The University remains committed to supporting you as you learn.

Programme Information

In light of Covid-19, some laboratory elements of the programme will be modified during 2020-21. Lab sessions will be adapted to ensure they meet current social distancing requirements. Where written examinations are unable to take place due to social distancing measures, an alternative form of assessment will be offered.

In order to focus our programme we have moved options from the first semester of 1st year to second semester of 1st year. This made place for the Physics Skills - Programming and Data Analysis module (PHYS1201) to move to the first semester to ensure that our students have a strong foundation of computing knowledge from the beginning. Linear Algebra 1 (MATH1048) has been removed as an option from the first semester and in the second semester we have created a new module - Linear Algebra for Physics (PHYS1203) that gives the same learning outcomes.

Programme Structure

Where optional modules have been specified, the following is an indicative list of available optional modules, which are subject to change each academic year. Please note that, in some instances, modules have limited spaces available.

Programme:	Master of Physics - 4413
Term:	2020-2021 Academic Session (202021)
Area title:	4413-1 - Master of Physics Part 1

Compulsory Modules

You must complete the following modules:

Module	Module Title	Credit	Core?	Semester/Term
MATH 1006	Math Method for Phys Sci 1a	15	Yes	Semester 1
MATH 1007	Math Meths for PhysSci 1b	15	Yes	Semester 2
PHYS 1011	Wave, Light and Quanta	10	Yes	Semester 2
PHYS 1013	Energy and Matter	10	Yes	Semester 2
PHYS 1015	Motion and Relativity	10	Yes	Semester 1
PHYS 1017	Physics Skills 1	10	Yes	Semester 1
PHYS 1019	Physics Skills 2	10	Yes	Semester 2
PHYS 1022	Electricity and Magnetism	10	Yes	Semester 1
PHYS 1028	Personal Tutorial (Physics)	0	No	Full Academic Year
PHYS 1201	Phys Skills Prog & Data Analys	15	Yes	Semester 1

Optional Modules

You must choose from the following modules:

Module		Credit	Semester/Term
Rule 1	<p>Select 1 modules</p> <p>Select 1 module from the following 2 groups.</p> <p>Please also ensure that you select an even split of credits overall by Semester including your compulsory modules</p> <p>If you do not, you will be contacted by your Student Office and asked to amend your choices.</p>		

	<p>There may be other modules across the university that interest you but do not appear on the list of optional modules below. If you would like to take a module that does not appear in the list below please contact the relevant module leader for further information and inform the Faculty Student Office of your proposed change of module so they can record this accordingly.</p> <p>Please note that any proposed changes will be subject to meeting the required pre-requisites and co-requisites of the module as well as timetabling constraints.</p>		
Rule 1 GROUP 1	<p>Select up to 1 module</p> <p>Select up to 1 module from the following:</p>		
PHYS 1203	Linear Algebra for Physics	15	Semester 2
PHYS 1004	Introduction to Photonics	15	Semester 2
PHYS 1005	Introduction to Astronomy and Space Science	15	Semester 2
Rule 1 GROUP 2	<p>Select up to 1 module</p> <p>Select up to 1 module from the following:</p>		
LANG XX15	Language Module	15	Show Electives

Programme:	Master of Physics - 4413
Term:	2020-2021 Academic Session (202021)
Area title:	4413-2 - Master of Physics Part 2

Compulsory Modules

You must complete the following modules:

Module	Module Title	Credit	Core?	Semester/Term
--------	--------------	--------	-------	---------------

PHYS 2001	Electromagnetism	15	Yes	Semester 2
PHYS 2003	Quantum Physics	15	Yes	Semester 2
PHYS 2006	Classical Mechanics	15	Yes	Semester 1
PHYS 2022	Physics from Evidence I	15	Yes	Semester 1
PHYS 2023	Wave Physics	15	Yes	Semester 1
PHYS 2024	Statistical Mechanics	15	Yes	Semester 2

Optional Modules

You must choose from the following modules:

Module		Credit	Semester/Term
Rule 1	<p>Select 30 credits</p> <p>Select 30 credits from the following:-</p> <p>Please do NOT select modules you have taken and passed previously. If you do, you will be contacted by your Student Office and asked to amend your choices.</p> <p>Please also ensure that you select an even split of credits overall by Semester including your compulsory modules.</p> <p>There may be other modules across the university that interest you but do not appear on the list of optional modules below. If you would like to take a module that does not appear in the list below please contact the relevant module leader for further information and inform the Faculty Student Office of your proposed change of module so they can record this accordingly.</p> <p>Please note: Students with first class profiles who may wish to transfer to the 'MPhys with year of Experimental Research programme' at the end of their 2nd year should refer to the programme specification for the list of the</p>		

	recommended optional modules for this programme.		
ANTH 2001	Cosmology, Ritual and Belief	15	Semester 2
CHEM 1012	Introduction to Chemistry	15	Semester 1
HUMA 2013	How the Arts Work: A Practical Introduction to Cultural Econ	15	Semester 1
LANG XX15	Language Module	15	Show Electives
LANG XX15	Language Module	15	Show Electives
LANG XX30	Language Module	30	Show Electives
MATH 2015	Mathematical Methods for Scientists	15	Semester 1
MATH 2038	Partial Differential Equations	15	Semester 2
MATH 2045	Vector Calculus and Complex Variable	15	Semester 1
PHIL 1016	Reason and Argument	15	Semester 1
PHYS 2007	Medical Physics	15	Semester 2
PHYS 2009	Practical Photonics	15	Semester 2
PHYS 2013	Galaxies	15	Semester 1
PHYS 2015	Introduction to Energy in The Environment	15	Semester 2
PHYS 2031	Introduction to the Nanoworld	15	Semester 1
UOSM 2017	Intercultural Communication in a Global World	15	Semester 2
UOSM 2022	Social Enterprise	15	Semester 1
UOSM 2031	Engineering Replacement Body Parts	15	Semester 2

Programme: Master of Physics - 4413

Term: 2020-2021 Academic Session (202021)

Area title: 4413-3 - Master of Physics Part 3

Compulsory Modules

You must complete the following modules:

Module	Module Title	Credit	Core?	Semester/Term
PHYS 3002	Nuclei & Particles	15	Yes	Semester 2
PHYS 3004	Crystalline Solids	15	Yes	Semester 2
PHYS 3007	Theories of Matter, Space&Time	15	Yes	Semester 1
PHYS 3008	Atomic Physics	15	Yes	Semester 1
PHYS 6009	Dissertation	15	Yes	Semester 1

Optional Modules

You must choose from the following modules:

Module		Credit	Semester/Term
Rule 1	<p>Select 1 module</p> <p>You must select one of these modules. The module will be compulsory for your programme.</p> <p>Select 1 module from the following:-</p>		
PHYS 6008	Physics from Evidence II	15	Semester 2
PHYS 6017	Computer Techniques in Physics	15	Semester 2
Rule 2	<p>Select 2 modules</p> <p>Select 2 modules from the following:-</p> <p>Please do NOT select modules you have taken and passed previously.</p> <p>If you do, you will be contacted by your Student Office and asked to amend your choices.</p> <p>Please also ensure that you select an even split of credits overall by Semester including your compulsory modules.</p> <p>There may be other modules across the university that interest you but do not</p>		

	<p>appear on the list of optional modules below. If you would like to take a module that does not appear in the list below please contact the relevant module leader for further information and inform the Faculty Student Office of your proposed change of module so they can record this accordingly.</p> <p>Please note: Students with first class profiles who may wish to transfer to the 'MPhys with year of Experimental Research programme' at the end of their 2nd year should refer to the programme specification for the list of the recommended optional modules for this programme.</p>

Programme: Master of Physics - 4413

Term: 2020-2021 Academic Session (202021)

Area title: 4413-4 - Master of Physics Part 4

Compulsory Modules

You must complete the following modules:

Module	Module Title	Credit	Core?	Semester/Term
PHYS 6006	MPhys Project	30	Yes	Full Academic Year
PHYS 6015	MPhys Final Year Synoptic Exam	15	No	Semester 2

Optional Modules

You must choose from the following modules:

Module		Credit	Semester/Term
Rule 1	Select 5 modules		

	<p>Select 5 modules from the following with a maximum of 2 at NQF6 (Part 3 level) :-</p> <p>Please do NOT select modules you have taken and passed previously.</p> <p>If you do, you will be contacted by your Student Office and asked to amend your choices.</p> <p>Please also ensure that you select an even split of credits overall by Semester including your compulsory modules.</p> <p>There may be other modules across the university that interest you but do not appear on the list of optional modules below. If you would like to take a module that does not appear in the list below please contact the relevant module leader for further information and inform the Faculty Student Office of your proposed change of module so they can record this accordingly.</p> <p>Please note that any proposed changes will be subject to meeting the required pre-requisites and co-requisites of the module as well as timetabling constraints.</p>
