

# Addendum to the Programme Specification

6097 MSc Global Health

This Addendum has been produced to highlight the key changes made to the existing Programme Specification as a result of the University's response to the Covid-19 Pandemic. You should read it in conjunction with the relevant Programme Specification from the year you started your programme.

[Programme Specification for entry in 2020-21](#)

[Programme Specification for entry in 2018-19](#)

## University level information

---

In view of COVID-19, the University has had to make changes to some elements of programme delivery for 2020-21. These changes have included the method of delivery, such as face-to-face and online, and the number of modules available.

The University aims to provide as much of a face-to-face component to your education as prevailing conditions at the time allow, combined with its new blended approach that will develop active independent and group online learning.

As the COVID-19 pandemic develops, the University's response to this and other issues may likewise need to evolve. The University will consult with student representatives as necessary and appropriate and will communicate changes to you as soon as practicable so that you have the information you need to understand how a change may impact you and what steps you need to take next. The University remains committed to supporting you as you learn.

## Programme Information

---

In light of COVID there is a reduction in available optional modules in Semesters 1 and 2: Please see programme structure

## Programme Structure

Where optional modules have been specified, the following is an indicative list of available optional modules, which are subject to change each academic year. Please note that, in some instances, modules have limited spaces available.

### Year 1 – Part 1

Semester 1				Semester 2			
Modules	ECTS	CATS	Module type	Modules	ECTS	CATS	Module Type
GLHE6001 Critical Issues In Global Health: Concepts and Case Studies	5	10	Core	DEMO6026 Population and Reproductive Health	5	10	Comp
MEDI6073 Epidemiology: Concepts, Analysis and Application	10	20	Comp	GLHE6002 Methods and Analysis of Global Health Trends and Differentials	5	10	Core
RESM6004 Quantitative Methods 1	5	10	Comp				
<b>Semester 1: You must select 10 ECTS/20 CATS</b>				<b>Semester 2: You must select 20 ECTS/40 CATS</b>			
* please contact the programme lead if you wish to take any 7.5 / 15 CAT modules				* please contact the programme lead if you wish to take any 7.5 / 15 CAT modules			
DEMO6020 Demographic Methods 1	5	10	Optional	RESM6305 Mixed Methods	5	10	Optional
DEMO6021 Understanding Population Change	5	10	Optional	MEDI6066 Advanced Statistical Methods in Epidemiology	5	10	Optional
GEOG6098 Introduction to Sustainability*	7.5	15	Optional	GEOG6094 GIS for Analysis of Health*	7.5	15	Optional
